September 2017

Dear Applicant,

Thank you for expressing an interest in the Head Teacher vacancy we have at Repton Primary School.

We are a medium sized primary school located in the South Derbyshire village of Repton with a cohort of well-behaved pupils and dedicated staff.

The Governors have recently identified a number of key areas that require improvement to ensure the effective management of the school, all of which have been reinforced in the finding of a recent OFSTED inspection.

We wish to employ a Head Teacher who can create and deliver an effective improvement plan to address these issues and take the school forward. This will require drive and ambition to provide the school with the necessary leadership and the ability to build an effective leadership team.

In conjunction with this the Head Teacher will need to build trust in the parent body and to promote links into the community, other schools and local organisations.

The role of Head Teacher at Repton Primary School provides a great opportunity to make a positive impact to the school, its pupils and staff.

We appreciate your interest in this role and would like to invite you to visit the school prior to making an application.

Yours faithfully,

Darrell Taylor  
Chair of Governors  
Repton Primary School
