

At present, there are three members of staff in the French Department. We are a friendly, committed and forward-thinking team, always striving to improve the learning experience and academic achievements of our students.

Communication and support within the team is strong; we actively team-teach, develop resources collaboratively and reflect together on teaching and learning outcomes in order to strengthen best practice.

The department currently delivers the AQA GCSE French specification.

We are fortunate to work in a school where languages are well supported and highly valued. As a result, numbers going forward into KS4 are strong and this looks set to continue. Indeed, we are routinely greeted in French as we walk around the campus by those who study French – and those who do not! Our students want to succeed and will work hard to do so.

In order to further motivate our students, we offer a variety of additional opportunities, including learning pop songs, writing to pen pals and day trips to France. On a whole-school level, we are working to embed international awareness and an ethos of global culture through our language teaching. There is ample scope for the successful candidate to grow as a practitioner.

This is a really exciting time to join the French Department, as we continue to grow and develop. We look forward to receiving your application.
