MISSION

Enabling youth to
learn how to learn,
and to learn how to
live, empowering
them to become
people of integrity
and people for
others.

LETTER FROM THE PRINCIPALS

Dr. Nicola Brown
High School Principal

Mrs. Eileen Quigley
Elementary School Principal

Welcome from the Principals

Thank you for showing interest in joining us at St Joseph's Institution International (SJII) Malaysia. We hope this booklet provides you with some insight into our school, vision and procedures.

On August 29th 2016 SJIIM successfully opened the doors to 420 students from Nursery to Year 12. The school now has a population of 800 students. It has been wonderful to see the school coming alive to the sound of students and teachers. SJII Malaysia, a school of the De La Salle Brothers, is a state-of-the-art building which offers a range of excellent facilities and resources that include, a soccer pitch, 25m swimming pool and training pool, roof-top tennis courts, basketball court, auditorium and two stunning libraries. Of course, the success of an outstanding school will be dependent on outstanding teachers who are committed to delivering the very best holistic Lasallian education to our diverse international learners.

Teachers joining SJII Malaysia will have a fantastic opportunity to join our ambitious new international school. They will be expected to seize the opportunity of working for a school which draws on 330 years of Lasallian educational tradition. They will benefit from well-resourced classrooms, low student ratios, new facilities and a range of opportunities for further professional development. They will also be able to draw upon the support network of our sister Lasallian schools in Singapore. We believe that SJII Malaysia offers a marvelous opportunity for teachers to enhance their professional skills and develop their careers.

We are seeking teachers who will motivate and inspire our pupils. They will deliver a stimulating and enriching International Curriculum that will equip our students to become compassionate, caring and successful global citizens. Teachers will be committed to holistic education, have high expectations, be skilled practitioners and outstanding role models. Teachers will engage in professional development and have an understanding of how to improve learning by applying cutting edge research.

Continued next page

Our school is situated in the rapidly developing area of Petaling Jaya, an attractive suburb of Kuala Lumpur. New shopping malls, railway links to the centre of KL, high quality residential accommodation, and excellent sporting facilities make this area highly desirable. Our school will be a focal point of this community.

The target enrolment is 1554 pupils, from Nursery to year 13. The school will be language rich where English is the language of instruction and Mandarin will be taught to an exceptionally high standard. The school has been awarded the candidacy to be an International Baccalaureate school for Years 12 and 13, and the IGCSE will be taught in years 10 and 11. The Elementary School will offer a dynamic and creative curriculum delivered through the International Primary Curriculum. Singapore Maths will form the basis of the mathematics programme. There will be a very strong extra-curricular offer, including languages, cultural activities, outdoor education, and sports, with particular emphasis on community service.

Please find further information on SJII Malaysia in this booklet. If you have a spirit of adventure, high professional standards and believe you can contribute to the development of our school we will look forward to reading your application.

VISION

To be an international school of choice, recognised for values centered education and learning driven by passion that nurtures persons who make a difference to society.

We are committed to developing our students to become thinking and caring global citizens who are at the same time securely rooted in their community, share common values and have genuine spiritual awareness.

STUDENTS WHO LEAVE SJII MALAYSIA WILL BE,

Lifelong Learners who are resilient, creative, problem solvers, adaptable and risk takers.

Equipped with life skills which will ensure they are respectful, thoughtful, caring and compassionate.

Internationally Minded, they will have a sense of community and engagement; celebrate diversity; take positive action and have global awareness.

HISTORY AND LASALLIAN HERITAGE

Although SJII Malaysia is a new school we are associated with two schools in Singapore: St Joseph's Institution, with its 160 years of tradition in education and its distinguished alumni, and SJI International Singapore; one of the highest achieving international schools in Singapore. We will also be drawing on the best practice from leading international schools around the world.

Underpinning all that what we do is the ethos of the 330-year Catholic educational tradition of the De La Salle Brothers – named after St. John Baptist de La Salle, the Patron Saint of Teachers.

Concern for the poor
and social justice

Faith in the
presence of God

Quality
Education

Respect for
all persons

Inclusive
community

ORGANISATION AND CURRICULUM

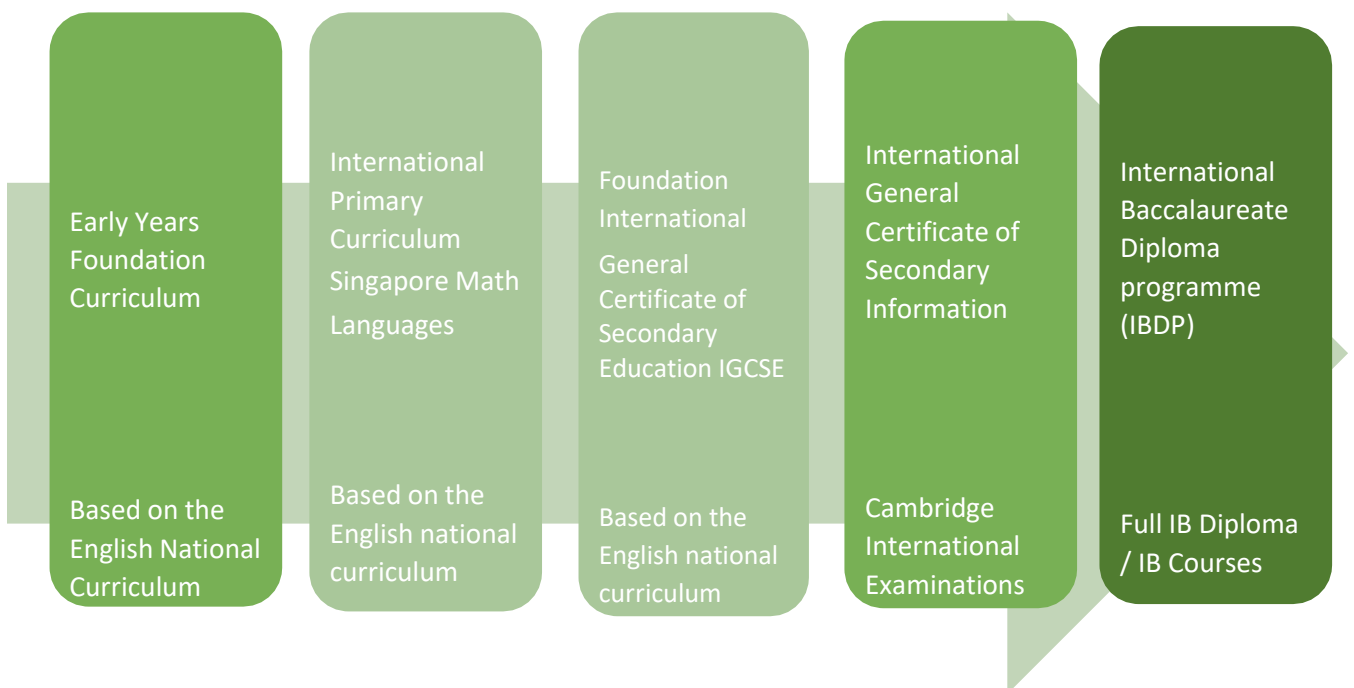

The Academic Leadership team consists of The Brother President, The Elementary School Principal, Mrs Eileen Quigley and the High School Principal, Dr Nicola Brown.

The Elementary School Principal oversees the Early Years, (Nursery and Reception) and Years 1-6. The High School Principal will oversee Years 7-13.

The Nursery and Reception classes will follow the English Early Years Curriculum Foundation Stage Curriculum.

Students in Y1-6 will follow: The International Primary Curriculum (IPC) and Singapore Math. The IPC will introduce a comprehensive range of subjects in line with the English National Curriculum. There will be a creative, progressive and thematic approach which will enhance the total development of each student, cognitively, emotionally, socially, physically and spiritually. Specialist teachers will be employed for Physical Education, Art, Music, ICT, Chinese and Bahasa Malaysia.

Students in Years 7-9 will follow the National Curriculum of England and Wales in preparation for the IGCSE (Years 10-11). Students in Year 12 and 13 will undertake the International Baccalaureate Diploma and have access to a spacious IB lounge to assist them to develop independent study habits.

LEARNING ENVIRONMENT

The Nursery and Reception classes will benefit from a discrete area with its own outdoor space. The environment will cater for the 6 areas of development as outlined in the English Early Years Curriculum.

- Personal, social and emotional development
- Communication, language and literacy
- Creative development
- Physical development
- Knowledge and understanding of the world
- Problem solving, reasoning and numeracy

Pupils benefit from an inspiring and exciting learning environment. Learning hubs have been created in line with cutting edge practice from around the world. State of the art furniture, flexible learning spaces and creative educational design will allow children to develop independent learning skills and learning attitudes and behaviours for the future. Pupils will be organised into registration groups of a maximum of 22 in the Elementary School and 25 in the High School.

In the Elementary School each class will have a class teacher and a learning support assistant.

PASTORAL CARE

A well-considered and operational pastoral care system will be a key component of our School. Values will permeate the total climate of the relationships within it and staff in SJII Malaysia will be expected to treat students with respect, celebrate their differences and individuality and take pride in their success.

This will enable students to develop self-worth and skills to be independent, responsible and active and contributing members of their school and community. All staff in the school are expected to contribute to the pastoral care of students.

CO-CURRICULAR ACTIVITIES

Our impressive facilities will be in use well beyond the school day. An extensive co-curricular program will be offered to students.

Sport, outdoor education, music, drama, debating and other artistic, creative and imaginative pursuits allow students to gain a sense of social and individual identity as well as a means of communication and expression. Co-curricular activities also provide the opportunity to nurture leadership skills as well as the ability to contribute in a team environment.

Performing Arts at SJII Malaysia provides students opportunities to express themselves creatively outside of the classroom environment, giving them rewarding, enriching and memorable experiences.

Sport will play a significant part in the life of the school and students will have the opportunity to develop self-confidence, discipline, and fellowship in a range of House and interschool events.

Active participation is strongly encouraged for all students with an emphasis on 'having fun' whilst at the same time developing skills, fitness and teamwork.

SJII Malaysia will prepare its students for life beyond the school by developing students that have a positive attitude towards learning, can think critically and creatively and the ability to be independent 'lifelong learners'.

Leadership programs with an emphasis on community service and support, where students are empowered with the confidence to achieve' will be a core component of the school.

LIFE LONG LEARNING

Through real life experiences, SJII Malaysia will provide students with a better sense of today's world and an understanding of how to contribute in a compassionate, inclusive and tolerant global society.

In line with the Lasallian Core Values of 'Service to Others' and 'Community Building from Within', all students will be involved in service activities throughout their time at SJII Malaysia.

Service activities will provide students the opportunity to serve their school and Malaysian and international communities in need.

Service activities at SJII Malaysia will not only involve students doing things FOR others but also doing things WITH others and therefore build leadership, collaboration and communication skills.

ORA ET LABORA

APPOINTMENT PROCESS

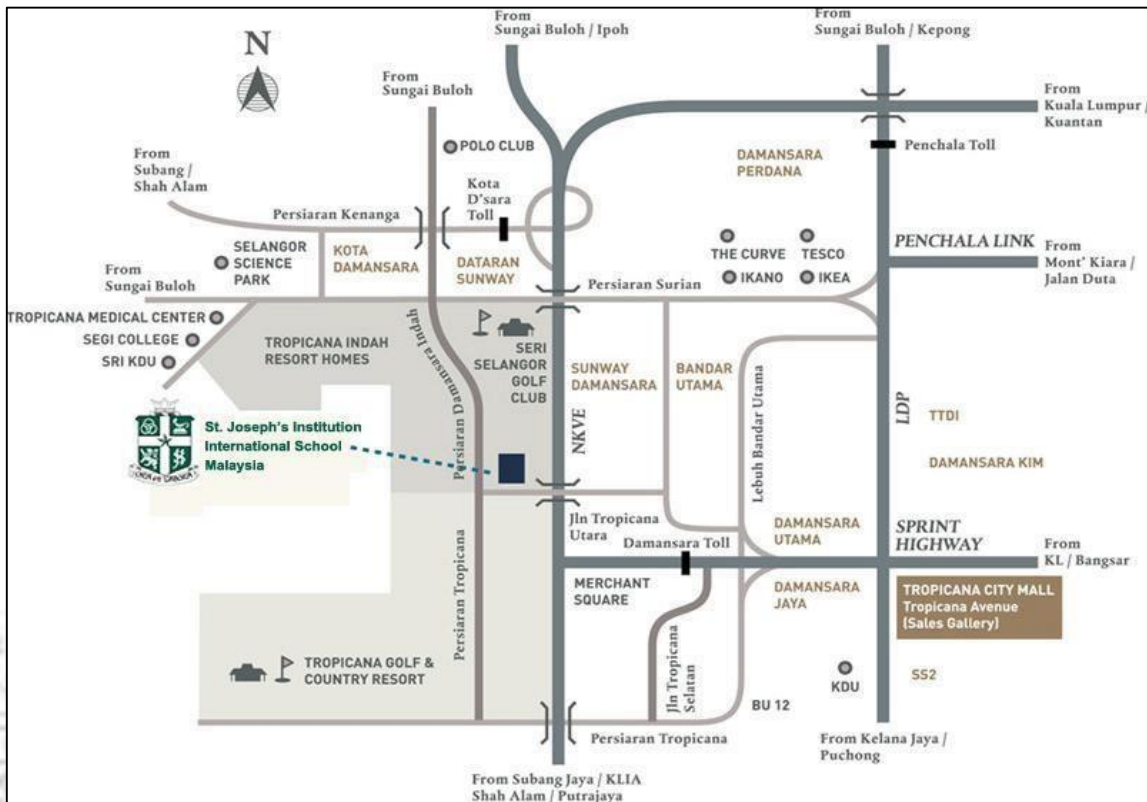

If you have a spirit of adventure, high professional standards and believe you can contribute to the development of our school, please complete the application form which is downloadable from our website. We will also need a Letter of application.

[Once completed, send the above to joinus@sji-international.edu.my.](mailto:joinus@sji-international.edu.my)

Please indicate clearly which post you are applying for in the subject portion of the email.

Interviews sessions will take place in Kuala Lumpur, London and via Skype.
