

QES^{tudio} is a 14-18 school that shares the same site and values as QES, plus the same parent body, The Lunesdale Learning Trust, giving our students the best of both worlds

Students in QESTudio pick a personalised 'Learning Package' build around a Specialist Pathway, such as Sport or Engineering, which is their focus for a full day each week

For more on our Learning Packages, [click here for Level 2](#) and [click here for Level 3](#)

QESudio is based around partnerships with local professionals, such as on a recent 'Brain Day' for our Health Pathway, with neurosurgeon Dr Guy Sutton as guest speaker

Our Pathways also reflect the needs of the local economy, such as Conservation & Environment where students develop woodland management & rural craft skills

For more on Conservation & Environment, [click here for Pathway details](#) and [click here for a photo gallery](#)

HIPPING HALL FINE DINING RESTAURANT

in Kirkby Lonsdale

Hipping Hall's fine dining restaurant is designed to reflect Head Chef Oli Martin's personality and food ethos.

QESTudio has a growing network of local professional partners, such as the Hipping Hall Hotel, where our Food students can gain invaluable experience from expert staff

[Click here for more on QESTudio's professional partners](#)

Learning links with professionals also include special visits for students, such as a recent trip to Parr Street Studios in Liverpool for our group on the Music Pathway

Plans are just being finalised on a multi-million pound project to build a new base for QESTudio by 2019 on the present site and housing up to 300 14-18 year-olds.

[Click for a gallery of more images of plans for the new base](#)

Currently our QESTudio students share a 'hub' with new facilities that include workshops for design technology, product design and textiles as well as IT suites and classrooms

[Click here for a QESTudio photo gallery for the Materials Technology Pathway](#)

These new facilities also include brand new fully-fitted kitchens where each student has their own 'work space' to foster a more professional and focused approach to food

Our brand new facilities also include a huge new Sports Hub, with 6 badminton courts, 3 netball courts, 3 tennis courts and 2 technical classrooms all in one beautiful building!
