

Carre's Grammar School
(part of the Robert Carre Trust)

Founded 1604

Executive Headteacher N M Law BA (Hons)

January 2018

Dear Candidate

Teacher of Mathematics

Thank you for showing an interest in this post. This is a fantastic opportunity to join one of the flagship departments within the school. The vacancy has arisen due to the promotion of the current postholder. Part time candidates (0.8-0.9 fte) would be considered.

We have 800 students on roll; boys only 11-16, and co-educational in the Sixth Form. The school has long been synonymous with excellence and the school's reputation for providing a first rate all-round education for local students has been strengthened even further over recent years. Our academic results speak for themselves while our achievements in Sport, Music and other activities are outstanding. We have been recognised as a Good school with Outstanding features under the new Ofsted regime and were delighted with this outcome, which recognised the strengths of the school and supported our own perceived areas for improvement. Ofsted noted that in Mathematics the progress students make in Year 7 to 11 is higher than is typical in grammar schools as well as being well above the national average, and that rapid improvements have been made in the last few years. The department's results are amongst the best in the school at all levels and Mathematics is perceived as a real strength in the school, with a large uptake in an expanding Sixth Form. We offer Further Mathematics, and would wish to do so in the future.

We have been recognised as one of the top schools in the country based on our performance in the last few academic years, and students have regularly accepted offers for Oxbridge and the top Universities. The friendly, cheerful atmosphere of the school helps our students enjoy learning and, as they grow into young men and women, we enable them to take increasing responsibility for themselves and for others around them.

To the right candidate, this post will be an extremely rewarding experience, an opportunity to really make a difference. I hope that having read the information and looked at the information on the website, you will decide that Carre's is the right school for you and that you will make an application. To do so, please submit the application form and a letter of no more than 2 sides of A4 in which you should cover:

- Your experience of teaching to date
- Why this particular post would suit you
- Relevant interests that would enrich Carre's

Completed applications should be in school no later than midday on Wednesday 24 January 2018. Interviews will take place in the week commencing Monday 29 January 2018.

If you would like further information about the post or an informal discussion, please contact Rachel Mahoney (Head of Mathematics).

You are warmly invited to visit our school. Please call Julie Body (Head's PA) to book a visit.

Yours faithfully

N M Law
Executive Headteacher
