Dear Applicant

Thank you for your interest in the post of Teacher of Science at The Henry Box School. We are looking for a well-qualified, committed and enthusiastic teacher of Science to join a strong, well-resourced faculty in this successful 11-18 comprehensive school. The faculty enjoys good take-up in all three Sciences at A level. This is an excellent opportunity for both NQTs and experienced teachers.

The Henry Box School is a successful, thriving mixed comprehensive school of over 1200 students situated on Church Green in the historic market town of Witney. The school was founded in 1660 by local man, Henry Box, and the beautiful original school building is still in daily use in the centre of our attractive site. We are proud of our history and tradition and very excited about our future. The school was inspected by Ofsted in November 2017 and was judged as 'good' in every category. The GCSE examination results in 2017 were excellent, with 'A' Level results above the national average.

At Henry Box, we are fortunate to have fantastic staff, both teaching and support, experienced and supportive governors, and students who have positive attitudes and are keen to learn. Students and staff enjoy respectful relationships, and above all we are a very happy school. Professional Development is central to our work and we offer opportunities and support for all staff to develop their skills. From our excellent NQT programme through to our 'Future Leader' programme, we are committed to recruiting and retaining the best. Being the lead school in our multi academy trust, we can also offer the opportunity for colleagues to develop their careers beyond one school if this is their area of interest.

The Henry Box School is committed to promoting the welfare of children and young people and expects all staff and volunteers to share this commitment. The appointment will be subject to enhanced DBS clearance, satisfactory references and other relevant pre-employment checks.

If you are interested in working in a forward thinking organisation, then Henry Box could well be the place for you. Our commitment to learning, leadership and literacy can found in our latest Ofsted report [here](#):

## The Science Faculty

The Science Faculty is a strong team of eleven committed specialist teachers. The team is managed by the Faculty Leader for Science.

Science across the Key Stages is taught in 11 well-equipped laboratories. The Science laboratories are served by 3 preparation rooms, one for each specialist area. There are 3 full-time, well-qualified and experienced laboratory Technicians who give invaluable support to Science teaching. There is also a greenhouse off one of the Biology laboratories and an established pond within a Science garden area. Schemes of learning, resources, course outlines and practical equipment are available for each year group and offer a broad and balanced curriculum for all students as well as maintaining flexibility for teachers. Every laboratory is equipped with a data projector and computer. In addition, six of the laboratories have interactive whiteboards. Teachers and students also have access to two banks of 15 laptops.

The new Key Stage 3 programme of study follows the national curriculum, using our own schemes of learning adapted from the Collins scheme. These schemes place a large emphasis on the skills required to successfully access the new GCSE courses in Key Stage 4. In Year 7, 8 and 9 students are taught in all ability groups and have 6 hours of Science per fortnight. Year 9 students complete the Key Stage 3 course by the end of term 2 and then begin the first GCSE modules in Biology and Chemistry.

All students in Years 10 and 11 follow the new AQA GCSE specification. Teaching groups are not set by ability and most students choose to study Separate Biology, Chemistry and Physics GCSEs. The rest study Combined Science, leading to a double award GCSE. All Key Stage 4 Science groups are taught by subject specialists.

Science at Henry Box is a popular subject amongst students and attracts large numbers of candidates for A-level. The specifications followed are:

- Biology: Edexcel
- Chemistry: Edexcel
- Physics: AQA

A level groups usually have around a dozen students and so there is often more than one group in each subject.
