

## Brilliant Stars International Primary School Mission Statement

We aim to serve students and families who are committed to taking ownership of a new model of learning. We believe, at Brilliant Stars, that there are no bounds to knowledge and children are able to learn a lot more than is often assumed. We believe in providing a balance of experiences to enrich and enhance an individual child's emotional, social, physical, creative, language and intellectual development.

### Vision

- To create a joyful and loving environment in which both parents and teachers are partners in the child's care and education.
- To engender strong virtues and foster a positive and joyful attitude towards learning.
- To guide the students in the social and emotional aspects of learning, life, and help them to develop into responsible, mindful, confident, articulate and respectful global citizens.
- To help students build virtuous characters supported by intrinsic motivation.
- To equip students with a strong foundation in reading, writing, math, ICT and coding.
- To develop logical thinkers and encourage independent hands-on learning.
- To provide a well-rounded educational experience through the presence of a range of extracurricular activities allowing the children to develop their diverse talents.
- To adopt new technologies and professional development to ensure up-to-date and research based teaching and learning practices are being upheld.
