

October 2017

Dear Candidate

Re – Vacancy – Teacher of Biology

Thank you for applying for the above post at Mayfield School.

This a very exciting time for the school, which has had £20m investment in new facilities, with the school welcoming 2 extra forms of entry into Year 7 in September 2014, and 4 extra in September 2015, 2016 & 2017, which will continue until the school reaches its 12 form of entry.

Due to a member of staff wishing to return following maternity leave on reduced hours, we find ourselves looking for a full time teacher of Biology, who will also be required to teach other Science subjects within the Faculty, but the primary subject should be Biology. Please see the generic job description. Further information about the school including a prospectus and Ofsted report can also be found on the website, www.mayfieldschool.net

Ideally, we would like the new member of staff to commence from January 2018, but would be happy for this to be from February half term or Easter 2018.

Please complete the teaching application form, which should be emailed to Tina Vorley, Head of HR & Student Services – vorleyt@mayfieldschool.net before the closing date Monday 16 October 2017 – 12:00 noon.

Please note that CV's are no longer accepted.

Pre-application visits are positively encouraged; should you wish to arrange a visit or require any additional information, please contact Tina at the school on the above email address or on her direct line 0208 215 7760.

Yours faithfully

Andy Rehling
Headteacher
