

Science (Chemistry) Teacher (Secondary)

International School Brunei

Background

International School Brunei was established in 1964, as a non-profit organisation with a Board of Directors to oversee the development of the school - a status that exists to this day.

In 2015 the school moved to a brand new 22 acre site on the outskirts of Bandar Seri Begawan, the capital of Brunei Darussalam. At the same time, 'The Residence' a state of the art Boarding House, was opened to cater for students aged 11 - 18. ISB also has a Primary School in Kuala Belait, Brunei. Our KB site is small and growing. Current plans are to move the school to a new site in 2019 to enable further growth and to meet the needs of the school's community.

The school offers Early Years Foundation Stage Curriculum education from Pre-Kindy (2yrs) and an internationally adapted National Curriculum of England and Wales from Year 1 (4yrs old) to Year 9 (13yrs) followed by IGCSEs (15-16yrs) and the IB Diploma programme in the Pre-University section (16 - 18yrs).

The school is non-selective, and currently has over 1200 students from over 42 different nationalities. Academic results are outstanding, with IGCSE and IB Diploma

results consistently above the world average. Students leave ISB to attend top universities all over the world.

The Position

International School Brunei requires an experienced teacher to join the successful Secondary School Science team. The ideal candidate will join a dynamic department focussed on the highest possible standards of teaching and learning. The ability to teach, and experience of, Chemistry to Key Stage 5 is a distinct advantage and IB experience is preferred but not essential.

Science is a popular subject at ISB with high levels of attainment enjoyment and engagement. All students following an adapted British Curriculum at KS3, then opt to study either Coordinated or Triple Science at IGCSE (through Cambridge Examinations). At IBDP level students can choose from any of the Group 4 science options. The Science department is well resourced, with modern laboratories and access to a wide range of practical equipment, supported by an excellent science technician.

ISB is an inclusive school, therefore the successful candidate will need to have a wide range of pedagogical approaches to Science teaching and be able to deliver innovative and

engaging lessons which engage all students.

The Application Process

Interested candidates are asked to submit the following documents:

- On line application form and covering letter including a passport sized photograph.
- The names and contact details (including a telephone number) for three professional referees, one of whom must be your current Headteacher/Principal.

Longlisted applicants will be contacted within two weeks of the stated closing date with Skype interviews scheduled as soon as possible thereafter. If you have not heard from us by this time, you should assume that your application has been unsuccessful on this occasion.

Successful candidates are offered an initial two year contract, with the option to renew based on performance.

Your application should be emailed to the HR Manager at recruitment@ac.isb.edu.bn
Closing date: 20th December 2018
