Furness Academy Facilities Team

The facilities department at Furness Academy is a welcoming, dedicated unit consisting of a Facilities Operations Manager a team of 4 Facilities Officers and 13 cleaning staff.

The team ensure the presentation of the Academy is of its utmost priority. A great deal of time, energy and focus is dedicated to addressing the teaching and learning environment at any given opportunity.

A high level of planned routine maintenance ensures a close monitoring of any essential maintenance issues developing or arising which in turn presents and maintains the facilities to the highest standard.

This £23 million new build is second to none in the Furness area, officially opening in 2013 Furness Academy provides a suite of state-of-the-art teaching & learning departments.

Our sporting venues including a full size European standard athletic track, 3G (all weather) football pitch, two sports halls, dance studio and a fully equipped fitness gymnasium available to all staff, students and the local community.

With its large open and spacious circulations areas and internal lift to support manual handling duties the three story footprint of the building was designed with the main focus on accessible maintenance. A very simple approach of placing the user at the heart of the design process shapes the 'architecture' around both the functional and social idea within the building & premises.

We are looking for a flexible and enthusiastic Facilities Officer to deliver a high standard of support across the broad range of duties. The hours of work will be on a rota based on a shift pattern of hours which fall between 6.30am till 10pm Mon till Fri, the rota will also include some weekend work.

We believe that each employee contributes directly to Furness Academy's growth and success, we hope that your experience here will be challenging, enjoyable, rewarding and you will take pride in being a valued member of our team.
