OAKLANDS COLLEGE
JOB DESCRIPTION

CAREER FRAMEWORK	IT
JOB TITLE	IT Systems Support Technician
REPORTING TO	IT Support Supervisor

SUMMARY OF POST

The IT Systems Support Technician role is a multifaceted role encompassing first line and second line IT support from logging and assigning IT support calls using Servicedesk software to diagnosing and repairing basic IT faults across the organisation.

KEY RESPONSIBILITES

- Act as the first point of contact for IT support requests

- Use Servicedesk software to log, assign, update, maintain and resolve IT incidents and Service Requests

- Configure and maintain the College's IT Help site on MS SharePoint by documenting IT processes and procedures using AV technologies and embedded documentation techniques

- Maintain the IT Asset Database by auditing hardware possession and use as well as creating records for new hardware

- Assisting with the maintenance of user accounts and security groups to ensure the security of the Oaklands College Network

- Provide 2nd line support to colleagues remotely and in person where possible

- Escalate support issues to relevant IT colleagues where required

- Assist with troubleshooting issues regarding the use of bespoke and third party systems

- Load and Reload hardware with configured software using WDS

- Assist with the troubleshooting and maintenance of College and third party systems

Be aware of and follow College policies and procedures, with particular attention to health and safety, safeguarding, risk management, equality and diversity, quality and our values and behaviours. You will be required to attend training as necessary and update own CPD record.
