

مَدَارِسُ الْمَلِكِ فَيْصَالٍ
King Faisal School

The **Application** Process
for a **Teaching** Position at **KFS**

Many thanks for your interest in teaching positions at King Faisal School

KFS is an International Baccalaureate Continuum School offering three IB programmes to over 1,400 students from the ages of 3 to 18 (girls currently until 6 years old). The school is organised into Pre-School, Primary School and Senior School, each with its own Principal, leadership team and character but very much part of one school offering a seamless and fun journey from entrance to graduation. Many of our current pupils are the sons of former students who have a life-long relationship and love of the school. King Faisal School's entry in the international section of The Good Schools Guide reads "If Saudi Arabia had an Eton, this would be it".

As Executive Principal, I work with the individual Principals to provide an overview of the school and its vision for future growth and development. We have exciting plans for the future and aim to develop the curriculum and campus over the coming years. We are extremely lucky to have the backing and support of the King Faisal Foundation which opens up opportunities and relationships with other educational institutes and businesses in the King Faisal family.

Unlike many schools in major cities, KFS is blessed with a very large, spacious and green campus. Our facilities, lying inside the Diplomatic Quarter, are excellent allowing our learners to engage in many exciting opportunities to make the learner profile come to life. Be it in class, extra-curricular activities or educational visits we challenge our students to enable their all-round development as learners and thinkers.

For September 2018 or sooner, KFS seeks enthusiastic teachers to join our faculty and staff of over 300 people striving to provide the premium education for the families of Riyadh. Teachers at KFS benefit from the support of a knowledgeable and supportive staff, delightful pupils and a generous all-round package including salaries which are free from income tax, health care, accommodation and a reduction on school fees for dependent children in the school.

Our new teachers will join us at an exciting time for King Faisal School as we emerge from a time of restructuring and look to future plans for the school and the brand. Whilst experience within the IB programmes is helpful to your application we welcome applications from enthusiastic, hard-working teachers from all backgrounds bringing a range of skills. Continuing Professional Development opportunities for teachers at KFS are many and varied with many of our own teachers highly qualified IB visitors, trainers and workshop leaders. Many of our teachers travel internationally each year for further training taken from a generous staff training budget.

As with all schools it is extremely difficult to sum up KFS in such a short space but I hope that you are able to visit our website, social media and further information in this application pack to encourage you to find out more about working in KFS and Riyadh, we would love to hear from you. All best wishes,

Mr J M McElhone
Executive Principal

Vision:

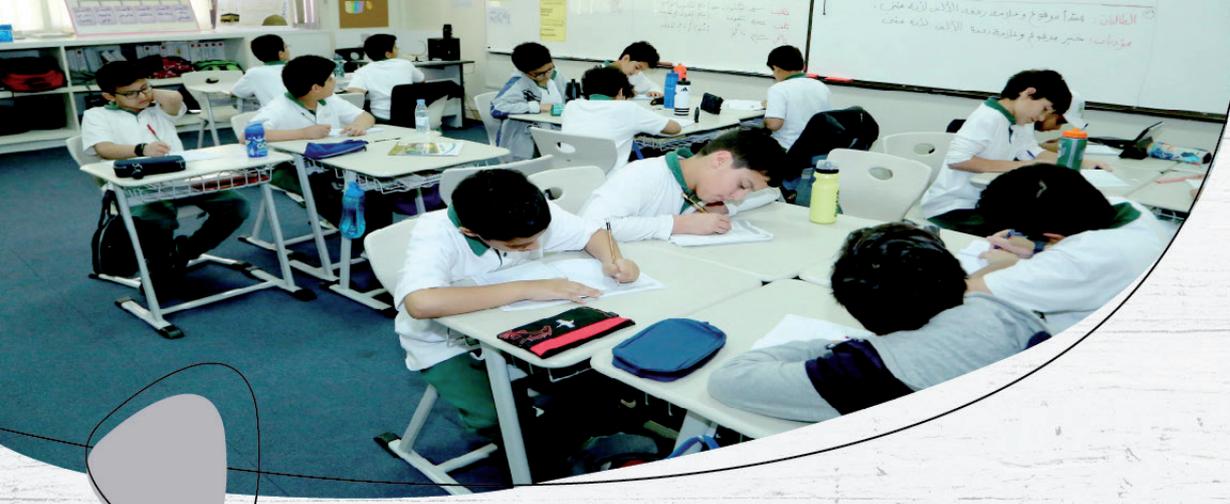

The KFS shapes tomorrow's men – those who will continue to uphold good citizenship, successful leadership and outstanding service to their parents and country.

KFS Mission Statement:

The goal of the King Faisal School (KFS) is to develop young people through a rigorous national and international program of study. KFS students are encouraged to attain academic excellence based on a foundation of faith, knowledge and work in order to help create a sustainable, peaceful world through intercultural understanding and respect.

KFS fosters respect for Arab Islamic heritage while embracing an international perspective which is vital to meet the demands of the modern world. KFS inspires students to succeed as world citizens and to be the best that they can be.

Primary Years Programme

I am pleased that you are considering a position with KFS. King Faisal School is an elite school based in Saudi Arabia, on a beautiful campus, situated in an ideal area in the Diplomatic Quarter in Riyadh. The Diplomatic Quarter is a clean and green area, unexposed to crowdedness, noise and pollution. The Diplomatic Quarter houses diplomats and most embassies and is deemed a liberal and secure area of Riyadh.

KFS is a national non-profit school with a strong international curriculum: the International Baccalaureate Primary Years Program (PYP). The primary section has 565 students aged 6 to 11. The KFS Vision and Mission of the school are adopted by all and are very well aligned with the IB Vision and Mission.

Staff appointed to KFS find themselves in an easy-going and friendly environment full of talent, knowledge and positive energy. Administration cares about each and every individual and staff members are highly collaborative. Every employee matters and concerns are taken seriously. Collaboration is a key to the success of the IB PYP.

KFS avails professional development opportunities and has attractive benefits and packages. IB is strong and growing in the PYP and staff members regularly work together to revise the curriculum to ensure that it is significant, relevant, engaging and challenging.

The country is a fascinating one; comfort and a high quality of life are found here. The geographic location makes it easy to vacation in Africa, Europe or the Middle East. It is a wonderful place to explore and teach.

I wish you all the best in your search for work and am ready to respond to any inquiries you have regarding working at KFS.

Iman M. Mashaal
Sincerely

Dear Prospective Teacher

I would like to welcome you to the King Faisal Secondary School (KFS). We are a full IB Continuum School, and I am proud to be leading the IB MYP and DP sections. KFS Secondary is a wonderful place to work and full of energetic, hungry young minds that are eager to make the global community a better place.

From Sunday to Thursday, we work hard to see our students achieve the highest academic level possible by making the curriculum relate to real-life in as many ways as they are to slice a banana.

The atmosphere amongst faculty is very collegial and many of us find time for recreation outside of school, whether it is running 10 to 12 KM around the Diplomatic Quarter trails, eating out, playing football together after school or watching racing cars on the Dirab race track.

If you are creative, innovative and have a solid work ethic as part of your DNA, KFS Secondary School is the place for you. I

Mr Ean O Alleyne
Kind regards

Middle Years Programme

Diploma Programme

History:

Accommodation:

King Faisal School has a set of furnished apartments for teachers. Some are located inside the Diplomatic Quarter where the school is located. They are one, two and three bedroom apartments. To know more about the Diplomatic Quarter in Riyadh, you may check the following links:

<http://www.ariyadh.com>

RESIDENTIAL AREAS & ROUNDABOUTS

The other apartment complex is about 5 minute. drive from the School. It is located in a quiet area called Al-Wadi, close to the DQ. The school is renting one complete building out of four for our teachers. The complex has its own security and facilities like a swimming pool, gym area, sauna and steam room. The complex was built 2 years ago and has furnished apartments with 2 and 3 bedrooms. Other residents are professional employees at nearby universities and hospitals.
