### **Successes of the department**

Our team has undergone significant staffing changes in recent years and has now entered a period of stability. Core to this are the very close links we have with Birmingham City University, whose entire Math's ITT cohort we are proud to host on an annual basis.

Core to our future success is the continual improvement of the learning experience our students receive, through the development of our team. All of our classrooms are well resourced with interactive boards in each. We are all within very close proximity to one another and we consider ourselves to be a school within a school.

We are proud to have been accepted onto the renowned Maths Mastery programme – 1 of only 3 secondary schools in Birmingham. Our students are benefitting from this first-class programme which promotes depth of understanding and problem-solving. A new rich and innovative syllabus is underpinned by excellent teaching and professional development for our staff. As a result, all team members are accustomed to walking into one another's classrooms and see very similar approaches to developing conceptual understanding. This is through a regular dialogue which is led by our well-respected Subject Leaders at weekly departmental workshops.

We have also developed our own marking policy which fits in with the unique nature of Mathematics and the need for immediate feedback.
