

The Mathematics Department

The Mathematics Department is a highly successful department, fully staffed with committed, inspiring and dedicated professionals who constantly strive to achieve the highest outcomes for all of our students.

At present, the Mathematics Department consists of 10 full time teachers and 1 part time teacher. All classrooms are equipped with data points connected to the school ICT network and ceiling mounted data projectors, interactive whiteboards and visualisers. The department is subscribed to both Mymaths and Mathswatch, with both resources used effectively beyond the classroom to promote independent learning as well as consolidation of topics taught in lessons.

Key Stage 3 and Key Stage 4 outcomes are both exceptional. Our success is underpinned by creating a challenging and engaging learning environment for all of our students, instilling a strong sense of pride in achievement. Mutual trust and respect are strong features of the relationships between students and staff. Parental support is firmly embedded and regular communication between students, parents/carers and teachers takes place to ensure that all students are fully supported to maximise their potential.

The department is committed to regular assessment for learning. Innovation, experimentation and variety in teaching and learning styles and methodologies are encouraged but always underpinned by thorough planning, assessment and evaluation. We have a strong team ethos which is built on a philosophy of trust and support, always seeking to improve our practice to provide the highest standard of mathematical education for every student in our care.

If you require any further information about the department, please contact katie.hall@marplehall.stockport.sch.uk.
