- be a teacher who takes pride in building relationships with students and believes strongly in the ability of all students both within and beyond the classroom
- be able to inspire and motivate colleagues and students alike
- be supported through a bespoke and individually tailored induction or NQT programme as well as being given opportunities and support for further career and professional development

Working at King James I Academy will provide the opportunity to join a dedicated team of staff whose mission is to become an outstanding Academy that develops successful, well rounded, socially mobile and confident young people who can contribute effectively to the global community.

In summer 2017, students achieved very positive outcomes in all year groups. Results in KS4 placed us high in Durham, based upon the Progress 8 measure, and the progress of learners in our Sixth Form was similarly impressive. Teachers have worked very hard to achieve improvement and we are justifiably proud of our school, our students and our staff.

Recent Ofsted success! King James I Academy was recently judged as a Good school!
