

Wheatley Park School

The Geography Department

The Geography department is situated in the main school and has three main teaching rooms. There are currently three experienced Geography teachers at Wheatley Park School: Annemarie Wintle-Gregory, Graham West and Frances Hancock. The Geography department has a very supportive and innovative team that makes use of a wide range of teaching resources to enhance the learning of pupils. All pupils have chromebooks and pupils use them regularly in lessons to self and peer assess, to use various GIS platforms, to create complex maps, graphs and charts as well as for research and presenting information. The department has its own office as well as a store cupboard where fieldwork equipment such as clinometers, quadrats, ranging poles and other equipment is stored. Additionally, the department has a wide range of new textbooks specific for the new GCSE and A Level courses.

Key Stages 3 & 4

Pupils are taught in mixed ability groups in Years 7 and 8. In Year 9 they start their GCSE option subjects and this year is very much a foundation for their GCSE. At GCSE the classes are mixed ability and Geography is a very popular option at GCSE with 120 students in the current Y11. We study the Eduqas A specification and have field trips to both Oxford and Dorset.

Key Stage 5

At A-Level, geography is a popular option with over 20 students enrolled. We follow the AQA course and enjoy excellent results with many pupils going on to study Geography at degree level. For KS5 we run a weeks residential to Exmoor in Y12 as part of their fieldwork for their AS level examination and to prepare them ready for their NEA that they write at the beginning of Y13.

The Post

This post is an excellent opportunity for a NQT or an experienced teacher. There is the opportunity for acting head of department responsibilities for a suitable candidate. We are an enthusiastic and committed team and are continually focused on improving our practice and pupils learning experiences. You can expect to have the opportunity to teach across all three key stages and access many CPD opportunities.
