

Head Teacher Recruitment

**Woodfield Community Primary School,
Harrogate, North Yorkshire**

“Where we celebrate success”

Welcome from the Chair of Governors.

Thank you for taking the time to find out more about Woodfield Community Primary School and the exciting challenges that we have for someone stepping into the role of Headteacher.

We believe in a positive, growth mind-set for our whole school community.

We will achieve this through consistent leadership and management ensuring everyone feels safe, is an independent learner with high expectations, standards and clear goals.

We give young people the attitude, confidence and skills to achieve whatever they want to achieve.

This Headteacher role represents an opportunity for a person with exceptional leadership skills to build on the existing educational qualities offered by our school. They will have the opportunity to provide outstanding education for all our children, building strong links with the wider community.

We have been on a rapid improvement journey at Woodfield Community Primary School as the reward for our hard work was a Good rating by Ofsted in its June 2016 inspection. There is still much to do however.

The successful candidate will need to demonstrate that they are an inspirational leader who can make a difference to the outcomes of all pupils.

The successful candidate must show that they have the vision, knowledge and skills to guide the school forward.

We are committed to this appointment process and you should be aware that referees would be asked the following question: “Are you aware of any child protection allegations in relation to this person? If so, please provide details.”

If you believe you can meet the challenge, we look forward to receiving your application.
