THE SPIRIT OF ANFIELD

Anfield is a Catholic school, in an international setting, where all are committed to creating a loving and joy-filled environment that is inspired by Jesus Christ.

Our vision is to ensure each child is given a solid foundation of learning, has a sense of self-confidence and self-belief, and is self-motivated, flexible and cooperative.

Anfield is a culturally diverse environment where all children are challenged, both academically and spiritually, to embrace and expand their international connections, enabling them to achieve their full potential and thrive within the global community.

OUR GOALS

To encourage the development in all students, the qualities of personal responsibility, consideration, courtesy and respect in their relationships with one another, their teachers, the local and global community and the environment.

To work for excellence in all academic, cultural and sporting endeavours, stimulating excitement in learning and requiring discipline in study, whatever the ability of the child.

To encourage children to be self-motivated, to strive to do their best in everything they do and to have confidence to take risks.

To encourage children in independent and critical thinking about the standards and values in society and the global community, and to discover and develop a personal faith to guide them throughout their lives.

To develop in each child a knowledge, understanding and respect for the Catholic faith.

To prepare children for their next stage of learning in an internationally-minded environment that encourages high standards of achievement and a life-long love of learning.

To provide an environment where everyone in our school community feels safe and is aware of their rights and responsibilities.

To continually move forward, through innovation, creativity and endeavour, and to explore the world with its myriad of opportunities and challenges.

Our children are cherished as individuals.

AN ACTIVE, STIMULATING, CARING SCHOOL

Our children feel safe and happy, both inside the classroom and beyond.

We provide a caring and supportive atmosphere that allows children to thrive academically, socially and emotionally, where individual talents are nourished and celebrated within our inclusive environment.

The rich educational opportunities encourage our students to excel, and fulfill their potential, becoming confident and capable young people.

Our broad, balanced curriculum is rigorous and demanding, with expectations of high academic attainment. Students are encouraged and challenged.and their particular talents are identified and developed.

Teaching staff carefully monitor every child's progress, and any difficulties are identified early so that appropriate support can be given.

Parents are the prime educators of their children and we foster a mutually supportive partnership between school and home.

Our students grow in an environment of inclusiveness, mutual respect and care.

OUR CATHOLIC NATURE

We are a community which is open, welcoming and inclusive, seeking to prepare pupils to find happiness and to lead lives of goodness, built upon Christian values, personal integrity and moral courage.

We promote genuine human growth, not only for Catholic pupils, but for those of other faith traditions and those with stances for living which may be independent of religious belief.

We provide our pupils with structured opportunities of encounter with Jesus, opportunities to learn about His life, to understand His teaching, to develop the virtues and values which He promotes and to follow His witness in service to others.

We aim to help all pupils to develop their fullest potential, preparing them for life, informing their minds and forming their characters so that they can contribute with others to the transformation of their world, by following the footsteps of Jesus Christ, who is our Way, Truth and Life.

Our values guide our attitudes and actions.

A VALUES-BASED EDUCATION

We enable our children to understand their own values in regard to their society and environment, along with the values of others. Our education is based on the Christian ethics of the school:

Community

Courage

Faith

Норе

Justice

Love

Reconciliation

Service

The attributes are key factors that contribute to the success of our well-rounded, young people.

THE ANFIELD ATTRIBUTES

In support of our vision and mission statements and our stated goals, we aim for our children to be:

Aspirational

Nurturing

Fair

Innovative

Effective Communicator

Life-long Learner

Determined

Students take an active part in guiding the wider work of the school.

STUDENT VOICE

Students have a voice and a contribution to make to our school. It is important that they be given the opportunity to express their views on issues of concern to them and are listened to seriously.

As the students get older, this is demonstrated through the School Council, the aims of which are:

- To enhance communication between students, management, staff and parents
- To promote an environment conducive to educational and personal development
- To promote friendship and respect among students
- To support the management and staff in development of the school
- To represent the views of the students on matters of general concern to them
- To help strengthen ties within the local community through various projects, such as fundraising

Students should be happy, and through happiness, achieve.

MINDSET AND MINDFULNESS

I hrough developing a healthy mindset, we support our children in fully understanding and engaging with the learning culture in their classroom.

We encourage them to maximise their efforts and also talk about their thoughts and feelings in relation to home and school.

As a result, we have optimistic and happy students, who show compassion and empathy for everyone in our Anfield family.

Embracing cultures and opinions enriches our lives.

INTERNATIONAL MINDEDNESS

As a caring school, we help our children to thrive within a global community, where thinking critically, creatively and collaboratively is essential in an ever-changing world. For our children, international mindedness equates to:

- people I share our world with
- I am learning about different cultures and global issues which affect me and others around our world
- I know what I can do to be a successful global citizen for the future

Opportunities are provided for all to succeed.

MAKING EDUCATION SPECIAL

Children of all abilities are embraced and fully supported within our Anfield family and we promote a positive culture of inclusion.

In addition, the St. Bosco Centre offers a modified curriculum tailored to specific student needs, enabling social, emotional and cognitive development prior to mainstream transition.

Home and school work closely together for a better future.

THE ANFIELD FAMILY

Anfield actively encourages parental involvement and always looks for ways to extend the close links between home and school.

Parents are encouraged to be involved in their child's educational experiences through workshops, seminars and field trips.

In the Primary Phase, the Friends of Anfield Committee actively promotes Anfield in the community, assists in fundraising projects and organises social activities which bring our school family together.

The school is particularly strong in the area of pastoral and academic support for students.

INTERNATIONAL VALIDATION

- "Anfield is characterised by nurturing and caring relationships."
- "The promotion of children's personal development is outstanding."
- "Students develop an understanding of faith in today's society."
- "Staff members are to be commended for their professional conduct, positive attitude and genuine care for the academic and emotional well-being of their students."
- "There is a good curriculum that captures the children's imagination and leads to good learning."
- 'Prayer is a quiet time and gives all present, parents, children, carers and staff, time to reflect on the Catholic Christian values of the school.'
