

LINDEN LODGE SCHOOL

Job Description

STATUS

Job Title: Highly Specialist Physiotherapist (Team Lead)

Accountable to: Headteacher

Reporting to

Professionally: Clinical Team Leader (with external clinical supervision)

Managerially: Clinical Team Leader

Grade: £44,531 - £49,916 inc. HCAS (Term-time Only)

Relationships: School Senior Leadership Team, Clinical Team Leader, Integrated therapy team colleagues, Pupils, Parents.

CONTEXT

About the school

Linden Lodge School provides a high-quality educational experience for visually impaired pupils, including those who are multi-disabled visually impaired and deaf-blindness. We are recognised as a specialist Regional Centre for children aged between two and nineteen. The school also supports pupils with profound and multiple learning difficulties. Pupils attend the school on a day or residential basis.

Therapy provision at Linden Lodge

Therapists will work as part of a newly formed multi-disciplinary therapy team, which will be well-integrated with the school to provide specialist therapeutic input and support to the children at Linden Lodge. The school is set up by way of distinct learning units or departments, and each therapist's caseload will be formed as much as possible in line with these departments, with additional responsibilities depending on experience and professional development priorities (e.g. Hydrotherapy, Rebound therapy, Treadmill training, Orthotic prescription). Therapy sessions will primarily take place at the school, although there may be occasions where it would be appropriate for them to take place at the child's home or in a clinic environment. Therapists will benefit from clinical professional leadership, peer support and trans-interdisciplinary working, and the many opportunities for professional development and training the school has to offer.

As this is a new role and set-up for the school, its efficacy will be regularly reviewed and as such, the role may evolve and change over time. You will have the opportunity to work as part of the collaborative team to shape, develop and deliver this service.

Job Purpose

To work as a highly specialist skilled and dynamic, clinical-lead Physiotherapist, providing clinical leadership, supervision and management of the physiotherapy team as part of the integrated, multi-disciplinary therapy team at Linden Lodge School.

In addition, your clinical expertise will be drawn upon in delivering hands-on physiotherapy, and in developing the skills of the junior physiotherapists in your team, thereby ensuring the provision of a high standard of Physiotherapy assessment, treatment and advice to children, young people and their families accessing the school.

Physiotherapy sessions will primarily take place at the school, or at home or in a clinic environment as appropriate.

Job Summary

- To take a specialist role in independently managing a caseload of children with profound and multiple learning difficulty and sensory impairment, including deaf-blindness and additional needs including physical disability, and complex medical needs within a specialist education setting.
- To be responsible for the delivery of a holistic service to children with vision impairment, multi-sensory impairment and complex learning and communication disorders, integrating working practice with education staff and the wider multi-disciplinary team.
- To liaise with families and carers of children to clarify roles and responsibilities of physiotherapy and provide knowledge about how to minimise the effects of physical impairment, to promote optimum function and musculoskeletal development of children and young a.
- To liaise and work closely with a multi-agency therapy team and the clinical team leader, clarifying the role of physiotherapy and be involved developing and implementing frameworks for joint working practice and joint record keeping.
- To provide training related to the field of physiotherapy.
- To work with other physiotherapists, the education team and families to provide communication focused interventions to children and young people with sensory, learning and physical disabilities.
- To provide clinical expertise to other physiotherapists within the team and act as a resource for more junior therapists and other colleagues.
- To be responsible for carrying out supervision and appraisal of junior colleagues as required.
- To take part in and initiate service improvements utilising audit and research as necessary.
- To support the development of core protocols covering the range of pertinent clinical issues associated with sensory, learning and physical disabilities.
- To represent the physiotherapy professional group relating to issues associated with the area of responsibility.
- To set development and workload priorities in discussion with line manager.
- To provide support and professional advice to the clinical team lead relating to physiotherapy and areas of responsibility.
- To ensure oversight and take part in clinical training for physiotherapy students as agreed and appropriate including preparation for and participation in practical exams.

The postholder will ensure the development of a high quality, evidence based therapy service through the promotion of professional and clinical guidance frameworks, in line with national initiatives such as Children's National Service Frameworks, NICE, the Children's Act, CSP and other child related areas and will be responsible for ensuring the implementation within the context of the integrated therapy team.

Main duties and responsibilities:

CLINICAL

- To be accountable for the delivery of a service to children within Linden Lodge School and residential service that operates within the parameters of CSP Professional, Clinical and National Clinical Guidelines. This may at times require home visits to children living in Wandsworth and surrounding areas.
- To monitor and evaluate own highly specialist service delivery and provide progress reports as requested.
- To assess, develop and implement highly specialist physiotherapy treatment and programmes of care, writing reports reflecting specialist knowledge and providing appropriate specialist intervention and evaluate outcomes.
- To provide highly specialist advice and support to others regarding the management and care of patients/clients with movement disorders and associated difficulties (within area of competence).
- To co-ordinate a range of both discipline specific and multi-disciplinary teaching programmes.
- To maintain an oversight of requests from Education Authorities to contribute a professional perspective to a child's Education, Health and Care plan, following departmental guidelines and the SEN code of practice, ensuring contributions are provided in a timely manner by the department.
- To act as a second opinion in cases of contention and support negotiations between the organisation, parents and Education Authorities and when required, participation in SEN Tribunals.
- To take part in discussions and planning to meet individual children's needs to ensure physiotherapy targets are embedded throughout the school, residential service and carry over into the home environment (including EHC plan reviews).
- To demonstrate clinical effectiveness by use of evidence-based practice and outcome measures, developing clear care plans based on best practice.
- To manage and prioritise own complex caseload independently, demonstrating skills in dealing with complex issues to generate appropriate strategies for caseload management.
- To manage and prioritise own workload of both direct and indirect contacts and time allocated working towards personal, integrated therapy service and organisation objectives.
- To contribute to development of care protocols/packages relating to specialist area in liaison with Clinical Team Lead to improve patient care within a specialist area. To assume delegated tasks as requested by line manager, including taking part in working groups and policy development groups.
- To contribute to interagency/ multi-disciplinary team building and policy development assuming a lead using specialist knowledge as appropriate. To adhere to and ensure that team plans, and policies are implemented. To define and manage a work programme for a clinical area.
- To advise Clinical Team Lead on issues of highly specialist service delivery including resourcing, (e.g. service deficiency) and providing progress reports regularly.
- To provide specialist clinical/technical skills for interpretive assessment techniques and intervention.
- To demonstrate highly developed auditory and perceptual skills in the assessment, diagnosis and treatment of patients/ clients.
- To demonstrate skills in handling clients with disabilities, including the ability to move patients and clients e.g. in wheelchairs within moving and handling guidelines.
- To have due regard for own personal safety and that of children/ carers, in particular to have regard to moving and handling regulations, restraining policies and ensure the safe positioning of self and others.

- To maintain intense concentration in all aspects of patient management for prolonged periods. In particular, to monitor auditory, visual and kinaesthetic aspects of client's communication, adapting and facilitating according to perceived client needs.
- To maintain intense concentration of all aspects of parent/ carer interactions with client. In particular to simultaneously monitor auditory, visual and kinaesthetic aspects of didactic interactions, encouraging adaptive strategies to maximise effective communication.

SUPERVISION AND MANAGEMENT

- To assist the Clinical Team Lead in achieving team objectives and service delivery by actively participating in team meetings, focus groups, development workshops and to be involved in the day-to-day operational aspects of running the service and to promote physiotherapy within the integrated therapy service, the organisation and among relevant Stakeholders.
- To effectively and efficiently prioritise and organise own workload.
- To provide effective guidance, delegation of duties, supervision and performance management to junior and support staff including carrying out Professional Development Plan's and supporting Continuous Professional Development.
- To participate in Multi-disciplinary working parties within the organisation. To explore, develop and implement ways of integrated working within the integrated therapy service, relating to external multi-agency teams and across the educational setting.
- To develop interviewing and selection skills in order to assist Clinical Team Lead with the recruitment of junior and support staff.
- To actively participate in ensuring that systems and processes are in place to deliver an efficient and effective integrated service.
- To maintain a working knowledge of relevant procedures including: Safeguarding Children, SEN procedures, and other legal frameworks.
- To apply the principles of Clinical Governance and their application to professional practice.
- To maintain up to date and accurate case notes in line with local policies and professional standards and organisational policies.
- To share information with others, observing data protection guidelines and data sharing protocols. To comply with the requirements of the Data Protection Act 2018.
- To attend department, and Service Planning meetings as required.
- To carry out such duties as may be required by the Clinical Team Lead and Headteacher, which are consistent with the responsibilities of the Grade.
- To report all clinical or non-clinical accidents, or near misses, promptly, and where required to cooperate with any investigation undertaken.
- To adhere to and implement clerical duties commensurate with the role, this includes following protocols for recordkeeping, measuring outcomes, recording and data management about clinics, equipment and review processes and liaising appropriately with the wider team to ensure service delivery and completion.

TEACHING AND TRAINING

- To identify personal and or professional development evidenced by Personal Development Plan/ Professional Portfolio developed within an appraisal framework, including objectives relating to clinical specialism.
- To participate in Individual Performance Review ensuring that the objectives set reflect the integrated therapy team and organisational improvement plans, including specific objectives relating the clinical specialism.
- To attend relevant training and development in order to maintain and develop skills and knowledge required of a highly specialist therapist working in the field of special schools and maintain up to date HPC and CSP registration.
- To attend any mandatory training and induction courses, as requested by management.
- To demonstrate knowledge of and adhere to CSP Professional and Clinical and National and Local Clinical Guidelines.
- To develop and deliver specialist training (formal and informal) to others in area of clinical expertise.
- To keep up to date with new techniques and developments for the promotion and maintenance of good practice Physiotherapy
- To attend relevant courses, meetings and special interest groups, in line with personal development objectives, Professional Development Plan, as well as ensuring appropriate representation of the organisation.
- To have a working and develop an in-depth knowledge of relevant procedures including: Safeguarding Children, SEN procedures, and other legal frameworks.
- To apply the principles of Clinical Governance and their application to professional practice.

RESEARCH AND DEVELOPMENT

- To initiate and undertake Research/ Clinical Governance/ audit projects within area of expertise. To represent the team within multi-disciplinary systems of clinical governance within the Integrated Therapy service where necessary and to participate in organisational research and clinical governance/audit projects and collect and provide research data as required. To develop innovations in areas of risk management, quality standards setting and clinical effectiveness.
- To be accountable for own professional action and recognise own professional boundaries, seeking advice as appropriate, through interpretation of clinical/professional policies within departmental and national protocols/policies and professional code of conduct.
- To work with colleagues across the organisation ensuring that robust Clinical Governance arrangements are in place to support, develop and promote audit, research and service quality within SLT as well as supporting a research framework within the service.
- To support the Clinical Governance arrangements within the Integrated Therapy Team ensuring appropriate feedback mechanism centrally within the organisation.
- To pro-actively promote a culture of learning, development and clinical excellence within the Integrated Therapy Team, linking this to the organisation objectives and seeking collaboration with academic institutions as appropriate.
