Dear Colleague

Thank you for your interest in the role of
Teacher of Science at Weavers Academy.

Working in partnership, Weavers Academy and the Trust have made much progress in recent years.

Underpinning our vision - *'striving for success by focusing on learning'* – the school has pursued a rigorous and continuous programme of educational improvement. As a result, curriculum planning, teaching strategies and assessment techniques have advanced and driven student progress. Work that the school has done to further improve behaviour and attendance has resulted in students becoming increasingly ambitious for their futures.

Our unique Knowledge Connected approach teaches students to analyse and understand their curriculum of study through the application of six key concepts, encouraging them to identify and solve problems in practical and creative ways that give them a sense that they can have an impact on the world around them.

We were delighted to have been awarded a 'good' judgement from Ofsted in May 2017. However, we are not complacent and want to achieve much more for our students and to build on the school's strengths. We seek to appoint an ambitious, creative, committed and energetic colleague to be a key contributor to the achievement of this goal.

To ensure that our staff remain at the leading edge of educational thinking and practice we offer a wide range of professional development opportunities. In addition, in joining a growing group of schools, you will have the opportunity to have an impact on how the wider network develops through school-to-school support.

You can watch a short video on what it means to be part of Creative Education Trust, illustrating our 'Knowledge Connected' approach to learning on our YouTube channel: www.youtube.com/user/creedadad.

I look forward to receiving your expression of interest.

Yours sincerely

Vivien Swaida
Principal

ABOUT CREATIVE EDUCATION TRUST

Creative Education Trust inspires and enables young people to build successful lives on foundations of learning, resilience and employability. We believe that a rewarding educational experience and the highest possible qualifications are the best way to ensure social mobility for young people.

Creative Education Trust is a growing multi-academy trust educating over 13,000 children in England. It was established in 2010 to work in England's post-industrial cities and coastal towns: areas of economic disadvantage and with a history of academic underachievement. We transform these schools by integrating a knowledge-rich curriculum with skills and creativity.

Creative Education Trust defines creativity as the ability to find connections between the things we know and turn these connections into new ideas and action. The academic arts and the sciences, practical subjects and life skills all need this creativity, and creativity is valued highly by employers. Our staff and expert advisers use imaginative methods for linking knowledge across subject boundaries, fostering personal development and resilience and developing practical skills that prepare students for their transition to adult life and employment.

Our aims for our students are to:

- ★ Raise their attainment in exams and tests through outstanding teaching
- ★ Make them intellectually curious with a sense of confidence
- ★ Increase their participation in HE, FE and apprenticeships
- ★ Ensure they have employability skills and attitudes
- ★ Create rounded individuals through a wide choice of co-curricular activities

We are achieving our aims through:

- ★ Educational rigour
- ★ Organisational effectiveness
- ★ Financial efficiency
- ★ Partnership & recognition of local identity
- ★ Respect for autonomous leadership
- ★ Quality not quantity
- ★ Promoting practical creativity

SUPPORT FOR OUR STAFF

We are committed to providing our staff with the highest quality support and challenge to ensure that their schools excel and give our students the education they deserve.

Our Principals and Headteachers have a good deal of autonomy as school leaders within a framework developed collaboratively with our Director of Education and our Director of Standards and Primary Education.

Each of the Creative Education Trust's schools benefits from a comprehensive programme of support and challenge, including working with former HMIs.

Creative Education Trust places a strong emphasis on CPD for teachers and for senior and middle leaders. We run a regular programme of training events to improve teaching performance and also provide focused management development and one-to-one coaching opportunities. We have an active cross-trust group on the Teaching Leaders programme and use Future Leaders and Teach First extensively.

We believe it is very important that each of our academies plans in such a way that financial and human resources are deployed to support their educational strategies fully. This is supported by our experienced Head Office team, who are available to advise on financial planning, audit, HR, legal and property matters either directly or by referral to our professional advisors.

Each of our Headteachers is a member of the Headteachers' Forum that meets regularly to help Creative Education Trust develop its ethos and strategy, and to share their professional expertise. As the network of Creative Education Trust schools grows, this forum has increasing value as a means of professional development and problem solving.

There are also a number of cross-group, phase leader and year-specific forums.

SCIENCE LEARNING AREA

The leadership and management structure consists of the Assistant Principal who leads science and a number of teachers with a TLR responsibility for the quality of teaching and standards. It is a cohesive team with a mix of experience and expertise.

The learning area has five specialist laboratories and three classrooms supported by specialist subject technicians. All of our laboratories have either been built or refurbished within the last few years and are well equipped. Two are fitted with fume cupboards and all have interactive touchscreens. Blackout—or close to blackout—can be achieved in most of the laboratories.

Use of technology to support learning is integral to the science Learning Area. All laboratories are equipped with touchscreen televisions and the department has a set of iPads that are utilised to further enhance learning both within and beyond the classroom.

SCIENCE CURRICULUM

Students enjoy learning science at Weavers Academy and outcomes substantially improved in 2017 with 72.4% of students completing GCSE on or above target—as a result of the emphasis placed on the quality of teaching and learning.

Teachers use a variety of teaching and learning styles and a wide range of resources to enhance and develop learning. Teachers within the science learning area regularly plan together and this has been an efficient and effective approach to raising standards. A range of strategies including assessment for learning and engagement techniques are strong and well established in science and teachers regularly team-teach and debate practice.

This is an exciting time to be joining the science learning area. The curriculum is constructed as an 'all through' approach with 'Collins' scheme of work used across years 7-11. This ensures that students receive high quality teaching on entry and provides a firm foundation for future learning.

In KS4 all students follow AQA leading to qualifications through the triple science or Trilogy route.

There is a vibrant and thriving sixth form provision and the school delivers A level Biology, Chemistry and Physics.

Marking and feedback has evolved rapidly over the past two years and the learning area now use digital marking through Excel to provide students with meaningful feedback for improving their work further.
