- The cost (approx. 2000 sek) will be deducted from your first months' salary.
- You should not travel to Sweden until you have received a decision from the migration board.

What is the school system?

Internationella Engelska Skolan is a leading independent school group ("friskola") founded in 1993. Education is free and parents have the right to choose the best school for their children. Our schools are bilingual and follow the Swedish curriculum.

Förskola	Lågstadiet	Mellanstadiet	Högstadiet	Gymnasium

Most of our schools are "Grundskola" for grades 4 – 9.

MOVING TO SWEDEN: The Basics

What are the contracts?

- Union approved contracts for one or two years, with the possibility to extend.
- Teachers are contracted to work 194 days. Students attend school for 178 days.
- 18 teaching hours a week.
- Salary is paid on 25th of the month, in Krona, into a Swedish bank account for the duration of your contract.

How does tax and social security work?

Paying taxes in Sweden is very straightforward: employers pay payroll tax on top of your salary every month, income tax (about 30 per cent) is deducted directly from your monthly salary, and value-added tax is included in the price of food, goods and services. It is easy to see where your tax money goes in Sweden. Health care, education and public transport are widely seen as among the best in the world. Government military spending is low, while peacekeeping missions and foreign aid are top priorities.

Employers pay your pension contributions.

Healthcare is publically funded and largely decentralised. As long as you plan to stay for at least a year you will be covered, just like Swedish nationals, under the social insurance system. Fees are nominal (100-200 sek for a visit to the doctor) and there is a maximum amount that you "top-out" at, per year.
