The faculty is fully staffed with 15 specialist maths teachers who all play an integral part in the development and improvement of the mathematical experiences across the school. Teachers across the faculty teach students in ability sets from Year 7 to Year 11, and there is growing cohort of students in the Sixth form studying A-Level Maths, A-Level Further Maths, Core Maths and resitting GCSE Maths. We are keen to support all teachers to develop their pedagogy and abilities so they can teach all ages and abilities, including A-Level Maths.

Maths is housed in a dedicated suite of 13 classrooms that are all equipped with either digital projectors or interactive whiteboards and document cameras.

As a teacher and leader, you will benefit from a comprehensive range of CPD activities that builds on our aim for all students to 'be the best they can be'. This includes participating in Teacher Learning Communities, faculty specific INSET and collaborative development of resources and teaching approaches. You will also benefit from leadership development CPD to both refine your expertise as an Assistant Faculty Leader and also equip you with the skills and experience to progress your career into Senior Leadership if you should wish to.
