We are looking for an experienced and motivated systems developer to join our growing Systems and BI team at Burnley College. The role will entail working on both core proprietary FE systems such as Tribal EBS and building bespoke web applications to ensure processes and operations are efficient and robust.

Your responsibilities will include to lead the implementation, development, and optimisation of Tribal EBS modules, workflows and integrations, and to manage upgrades, patches, and environment configurations, ensuring minimal disruption to service.

The successful candidate will ideally be educated to Level 3 (Typically A Levels or T Level but other qualifications will be considered).

Strong problem-solving abilities with a Logical and analytical approach, Strong attention to detail, and Exposure to one or more programming languages (through education, training, or personal projects) are all essential criteria.

The salary for this post is up to £41,934.
