Millbrook Primary School is situated in Leegomery, Telford. The school originally consisted of separate junior and infant schools which opened in the late 1970s. In 2005, the schools amalgamated to form Millbrook Primary School and Nursery.

The school occupies an enviable green site which gives superb opportunities for outdoor education. There are currently twelve classes from Reception to Y6 and an attached nursery. This will rise to thirteen classes from September 2018.

Background

Millbrook serves a diverse and enriching community. Forty-three per cent of the pupils are entitled to Pupil Premium and pupil mobility is considerably higher than the national average. The school's intake is diverse with fifty-five per cent of pupils from ethnic minority backgrounds. Forty per cent of pupils speak English as an additional language. The main languages spoken are Urdu, Panjabi and Polish. A number of children arrive every year from abroad with little or no English. The school places great value on the background and heritage of all pupils. As a result, we are building a diverse and supportive learning community with pupils at the heart of everything we do. To further this work, the school has adopted the International Primary Curriculum (IPC) to deliver the foundation subjects in a creative and exciting way. The international dimension provided through the curriculum is helping to prepare our pupils for life in the 21st Century.

There are currently 417 pupils on roll across the school and nursery. The school is at an exciting time in its development. An extension to the current nursery was built last year, and another extension is planned to provide an additional two classes and hall in the next two years.
