# WELCOME TO KPS SUMMER

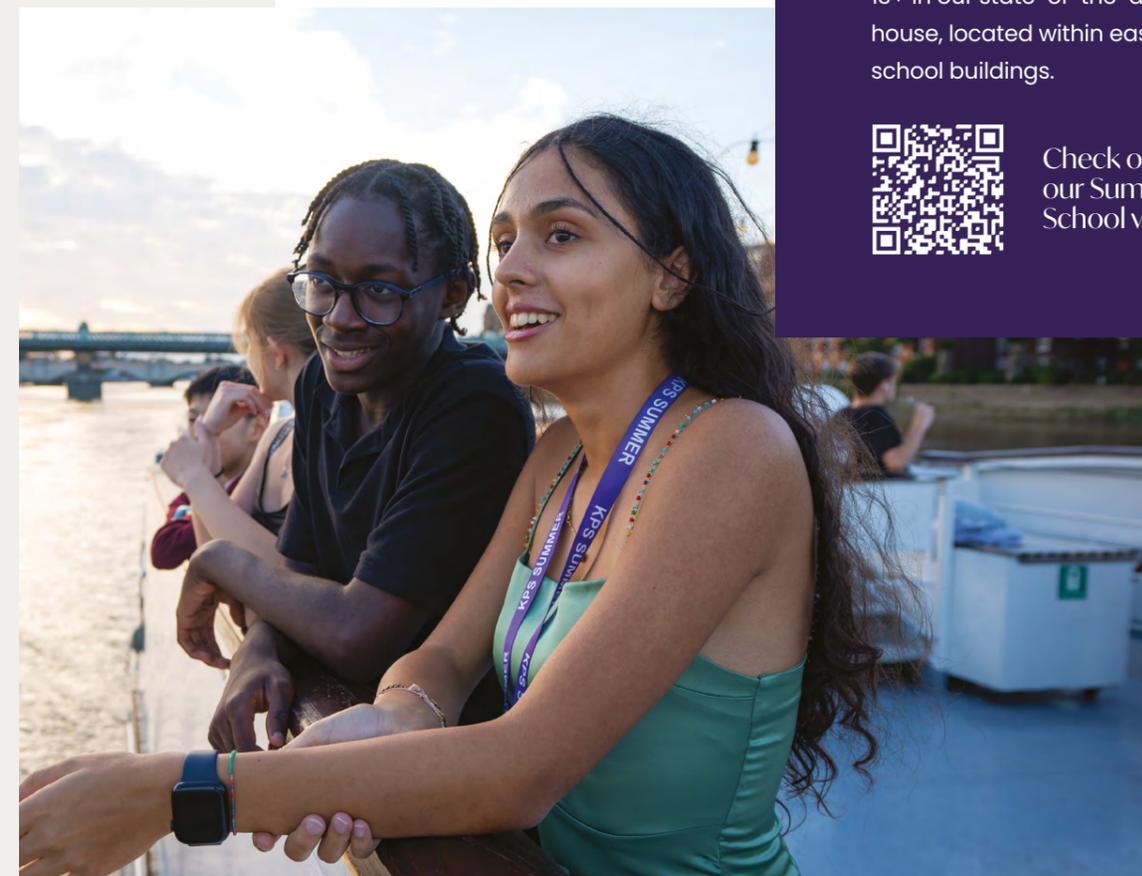

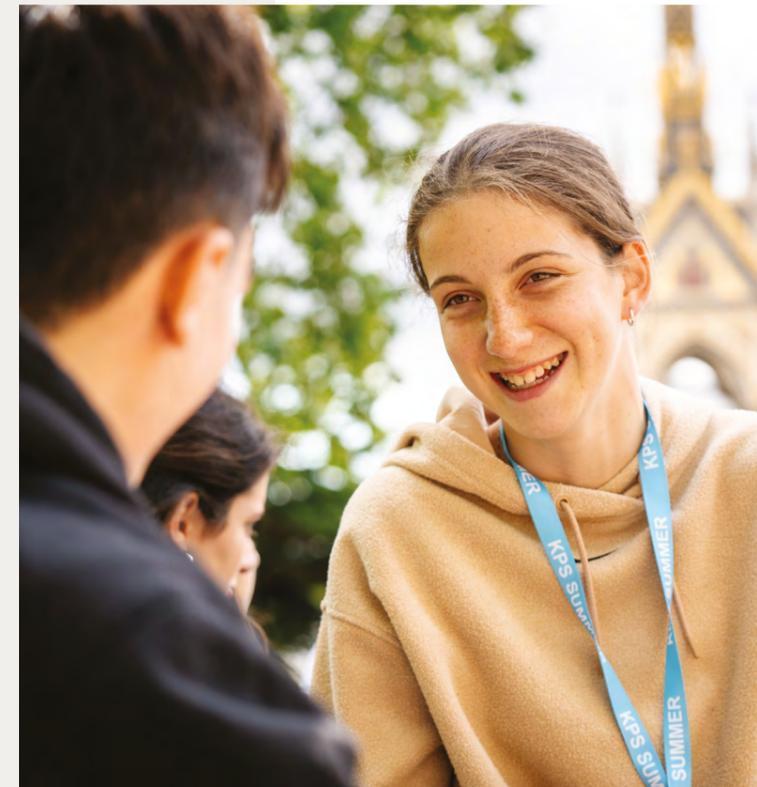

We are delighted that you are considering Kensington Park School's Academic Summer Courses, which offer students aged 14 to 17 a unique pre-university experience in the very heart of London.

On our two-week summer programme, you will not only explore your favourite subject in more depth, but get a head-start on choosing university options, and acquiring the knowledge and skills required for a career in your chosen field. You will be taught in small groups by experienced professionals, enjoy interactive workshops and seminars, and visit world-famous museums, parks, and other cultural and historic attractions.

Perhaps most importantly, however, you will have fun exploring London with like-minded students from all over the world, forging lasting friendships and making memories for life. We hope to meet you very soon!

**Michael Duncan**  
Head of Short Courses

Kensington Park School is a small, independent, co-educational day and boarding school for students aged 11 to 18.

A stone's throw away from the green spaces of Hyde Park, KPS offers students exceptional opportunities for academic and cultural enrichment in the heart of central London. Our modern and dynamic approach to teaching and learning, coupled with small class sizes and outstanding pastoral support, ensures our students are supported to reach their full potential. Our curriculum is designed to prepare students not only for academic success, but for life beyond the classroom, and every year our leavers are successful in securing places for competitive undergraduate courses at leading universities worldwide, including many in the Russell Group.

Our school is home to over 45 different nationalities, and we are immensely proud of the diversity of our student body. Boarding is available to all students aged 13+ in our state-of-the-art boarding house, located within easy reach of our school buildings.

Check out our Summer School video

# LONDON IS OUR CLASSROOM

Our Summer School takes place on one of Notting Hill's quaint, colourful backstreets, on the borders of Kensington and Westminster.

Students will enjoy the peace and quiet of the local area while studying in the morning, before heading out into the hustle and bustle of the city in the afternoon.

With our central Zone 1 location, the very best that London has to offer is right on our doorstep. Beautiful parks, a thriving arts scene, famous historical and cultural landmarks, and excellent opportunities for shopping are just a short walk or tube ride away. Our students' learning is enriched with regular subject-specific field trips and excursions in and around London.

At lunchtime, students can play sport, enjoy an ice cream in Kensington Gardens, or simply relax in the shade of Hyde Park, located just a few minutes' walk away from our Summer School building.

## 2025 STATISTICS

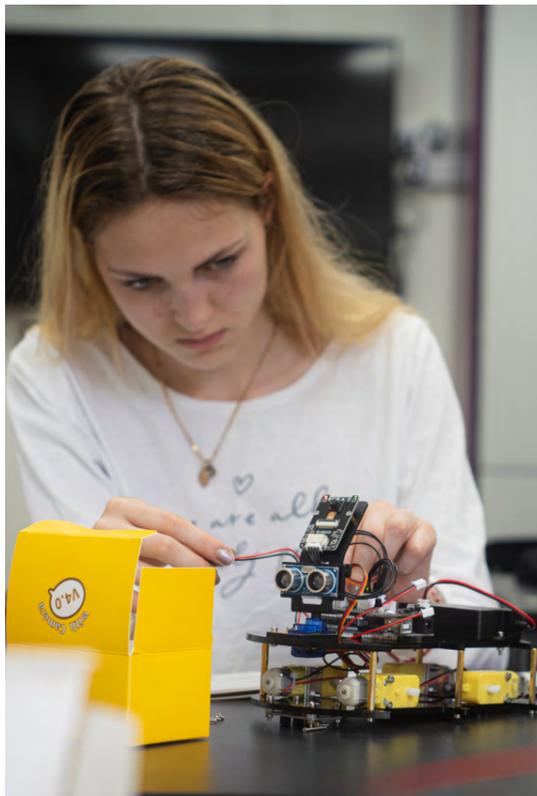

**30** different countries represented including Brazil, France, Japan, and the United Kingdom

**8** students per classroom on average across each individual pathway

**6** academic trips led by teachers per pathway

**4** world-class universities on our doorstep

**1** UNFORGETTABLE SUMMER!

# COURSE STRUCTURE

## Academic Pathway

At the core of our summer courses are pathway-specific workshops, lectures, and seminars, which are led by expert teachers and industry professionals. Our teaching is based on the principle 'learn, practice, produce'. We teach students the theoretical foundations, help them to apply these in practical contexts, and then give them space to create something of their own based on the skills they have learnt. At the end of the programme, students have the chance to present their projects to their peers during our student showcase.

## Field Trips & Visits

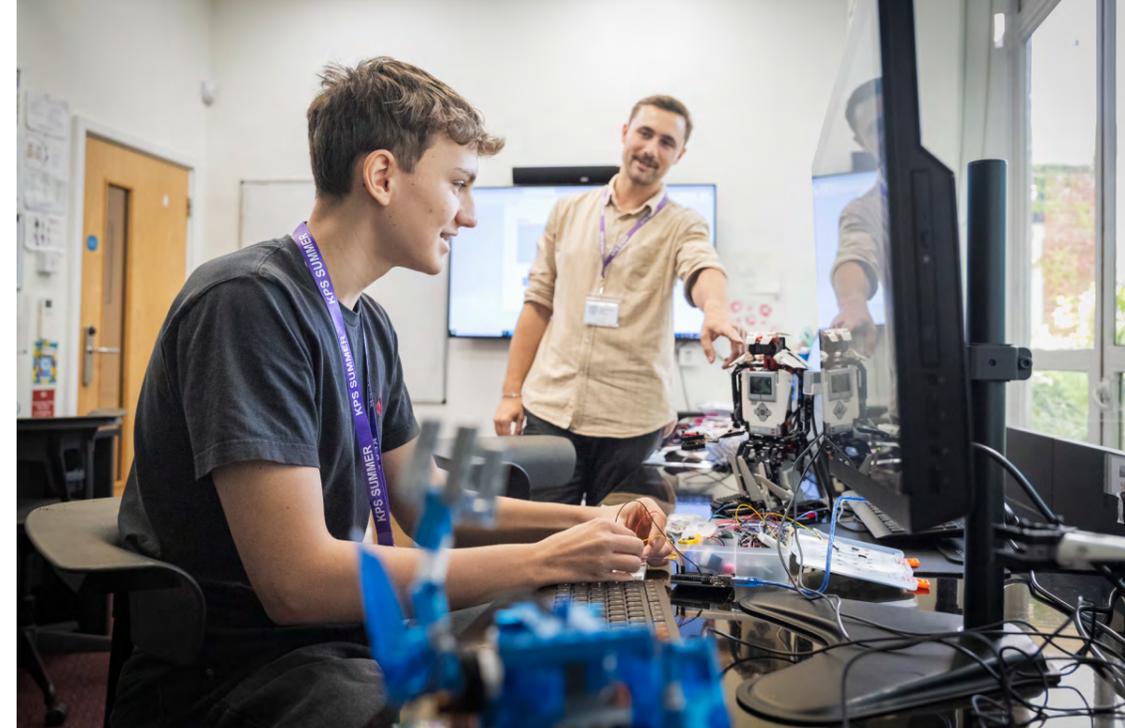

Subject-specific field trips are a fundamental part of our student experience. Over the course of our summer programme, students will enjoy five afternoons of academic trips and visits with their subject teachers. These trips provide students with real-world examples of their subjects in action.

## Life Skills

Alongside their subject classes, summer students benefit from practical workshops which focus on developing the skills that will help them to succeed at university and beyond. Interactive sessions in areas such as critical thinking, public speaking, interview skills, and growth mindset will push students out of their comfort zones and challenge them to develop new ways of thinking.

## Social

A key part of KPS Summer is meeting new people from all over the world, and creating friendships that will last a lifetime. During the evenings and at the weekend, summer students enjoy a rich and varied social programme which will introduce them to the breadth of the UK's capital city.

# ART & DESIGN

Unleash your creativity on our Art & Design programme, where you will hone your artistic skills in a wide range of areas, including painting, sculpture, design, print, and photography.

You will not only gain insight into the preparation required for entry to a top arts university and a successful career in the creative industries, but visit London's world-class art galleries and participate in specialised workshops.

## Course Highlights

- ✓ Tuition from practicing artists and photographers
- ✓ Experimentation within a broad range of fields of art and design, including etching, clay imprinting, and landscape painting
- ✓ Specialised sessions on how to best prepare your portfolio for entry to leading UK universities
- ✓ Trips to popular exhibitions at world-class London galleries and artists' studios
- ✓ Introduction to a wide range of traditional, modern, and contemporary art

"I chose this programme because I wanted to develop a portfolio for art school, and to expand my horizons by meeting new friends from different countries. I enjoyed the small class sizes, and the focused art sessions really allowed me to develop my drawing skills."

RAPHAEL, FRANCE

"During the programme, our art teacher didn't just encourage us to draw in the classroom, but to draw a little bit each day whenever and wherever we can. It wasn't just traditional painting – we were given so many other things to try, such as collage, lino cutting, embroidery, and sculpture. Overall, it was a really great experience which has helped me to develop many new skills."

DOMINIKA, AUSTRIA

# BUSINESS & ENTREPRENEURSHIP

Develop your knowledge of the commercial environment and get a head-start on the skills required to become the next generation of CEOs.

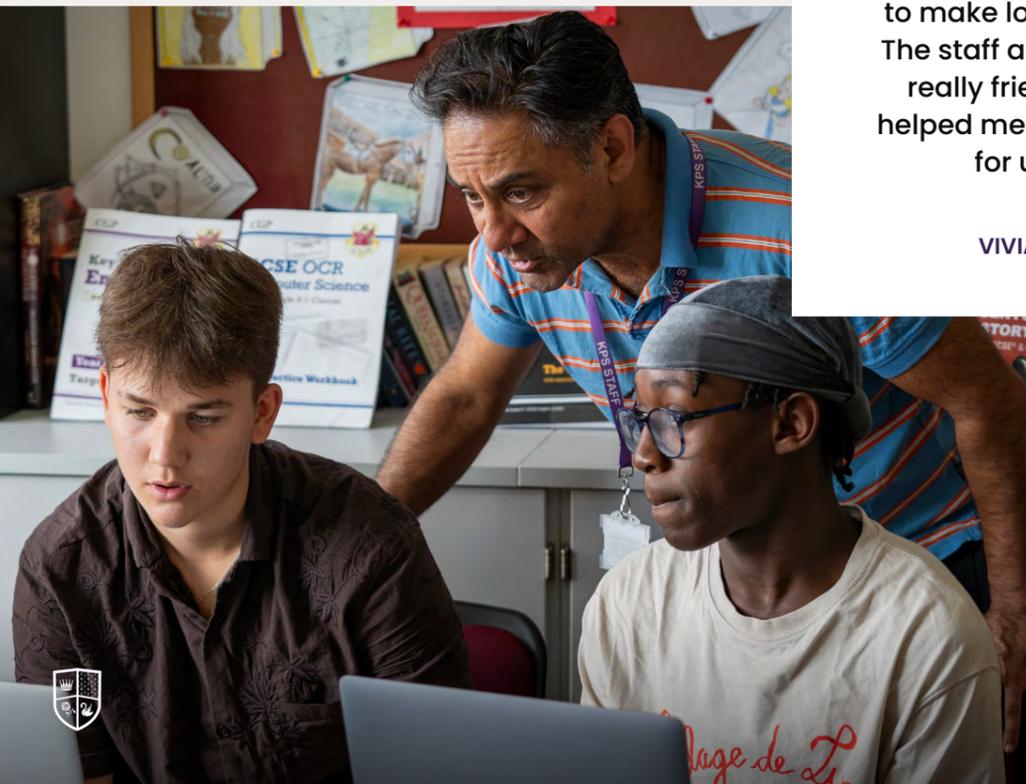

You will enjoy masterclasses on the principles of business such as marketing, development of a business plan, investment, financial management and entrepreneurship, and become familiar with the methods used by top companies around the world to increase productivity, innovation, and collaboration among teams.

## Course Highlights

- ✓ Combination of theoretical and applied learning techniques in various aspects of business and entrepreneurship
- ✓ Workshops with leading industry professionals
- ✓ University guidance and counselling, including what it takes to get into Oxbridge and other leading Russell Group universities
- ✓ Visits to real working companies and places of interest such as London's financial district and the Bank of England Museum.

"It was a very comfortable environment where I was able to make lots of new friends. The staff and teachers were really friendly, and have helped me to better prepare for university."

VIVIAN, GEORGIA

"I was looking for a summer camp that was careers-focused because I thought it would help me to choose a university major. I really enjoyed that we got to try out different branches of business like finance and marketing. There was theory, but also lots of practical elements. The teachers were friendly and patient, so don't be afraid to ask if you don't understand something. You will gain a lot from it!"

KAMILE, LITHUANIA

# DRAMA & THEATRE STUDIES

Backstage access, West End productions and the opportunity to star in your own production await on our Drama & Theatre pathway.

Our experienced teachers are practicing actors, directors, and producers who will introduce you to a variety of university and career options in this field. This programme will help you to develop your acting skills through the use of props, improvisation, and storytelling, as well as expert guidance in theatre directing, voice coaching, and live performance.

## Course Highlights

- ✓ Masterclasses with expert teachers and advice on university preparation
- ✓ Workshops in areas such as play directing, acting techniques, voice, lighting, and sound
- ✓ State-of-the-art theatre and performance space
- ✓ Visits to London's timeless theatres for backstage tours, workshops, and productions
- ✓ Mentoring from industry professionals on what it takes to break into theatre

“Before I started, I wasn’t very familiar with acting, and now I have a lot more skills and knowledge on the subject. I feel that I’ve gained a better understanding of all the things that a professional acting career involves – not just performance, but the lighting, costumes, and reading of different scripts. Each day, we did several useful warm up exercises, and developed our confidence in public speaking which I can take with me into different areas of my life”

FILIPPA, BULGARIA

# ENGINEERING & COMPUTING

Experience the world of AI, robotics, and coding, and develop the theoretical and practical knowledge required for a successful career in these fields.

Our expert tutors will provide you with specialised tuition focused on electronic engineering and computer science, and guide you on future university options. You will have the chance to work on exciting practical projects, such as 2D game development and robotics.

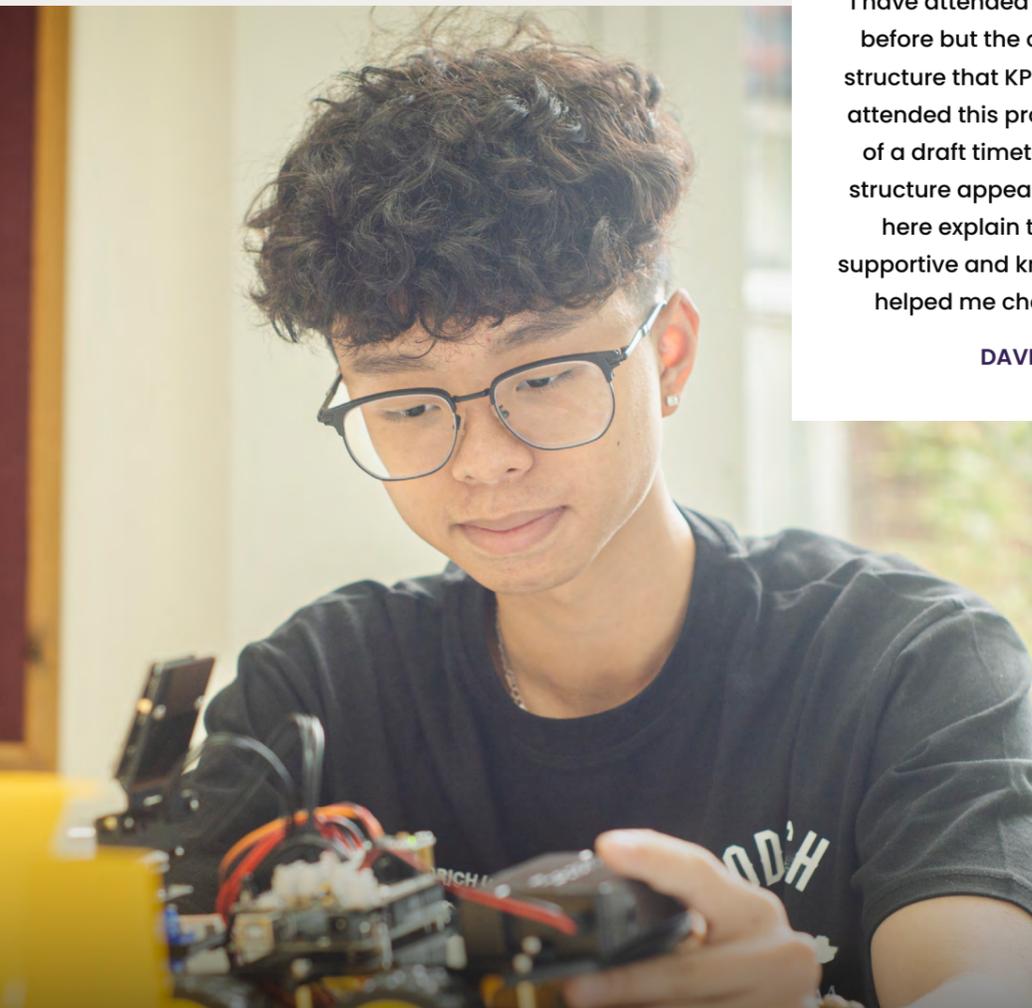

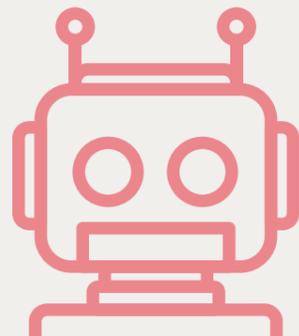

## Course Highlights

- ✓ Expert academic tuition and seminars by leading industry professionals
- ✓ Visits to leading universities with a strong focus on engineering and computing
- ✓ University guidance and counselling including what it takes to get into Oxbridge and other leading Russell Group universities
- ✓ Practical sessions in areas such as robotics and building structures

I have attended many summer schools before but the others have lacked the structure that KPS provided. The reason I attended this programme was because of a draft timetable which I saw – the structure appealed to me. The teachers here explain things really well, are supportive and knowledgeable, and have helped me choose my career path.

DAVITI, GEORGIA

We covered a lot of topics and also got a really good general view of Computing and what it like to study Computer Science in an English speaking country. I liked the practical lessons because we don't have that in my country; I loved matching the theoretical learning with the practical skills. I really enjoyed seeing the museums and travelling in London, combining the studying with experiencing London.

BEA, ITALY

# LAW, POLITICS & INTERNATIONAL RELATIONS

Sharpen your knowledge of law and government and visit fascinating legal landmarks in the political centre of the UK.

Our Law, Politics & International Relations pathway gives you the opportunity to expand and sharpen your political and legal knowledge, both locally and globally. You will broaden your perspectives and build confidence with regular debates and discussions of real-life cases. If you are thinking about a legal career, or would like to learn more about international relations and current political affairs, this programme will give you invaluable insight into working and studying in these fields.

## Course Highlights

- ✓ Expert academic teaching and seminars by leading industry professionals
- ✓ University guidance and counselling including what it takes to get into Oxbridge and other leading Russell Group universities
- ✓ Excursions to places of interest such as the Royal Courts of Justice and Houses of Parliament
- ✓ Debates on current controversial issues and topics

"I've wanted to study law since I was 12 years old. When I decided to do a summer school in the UK, it was the KPS programme that most appealed to me. This is a place where you can really express and test yourself. Over the two weeks, you truly learn a lot whilst also having fun!"

NAZ, TURKEY

"I am so happy that I chose the Law summer course at KPS! I got to participate in debates, gain an understanding of how the courts operate, and what it takes to work in the legal system. I learnt about the various legal careers available to me after university, and the differences between the British and European judicial systems. It was a really fulfilling experience."

IVO, SLOVENIA

# MEDICINE

Get a head-start on your future career in medicine with a combination of theory and practical sessions, and visits to leading London medical schools.

This pathway presents an exciting opportunity to immerse yourself in the world of medicine and study a combination of theory and practical techniques. If you are interested in applying to medical school or exploring a career in the healthcare industry, our experienced tutors will guide you through your choices and give you the edge you need.

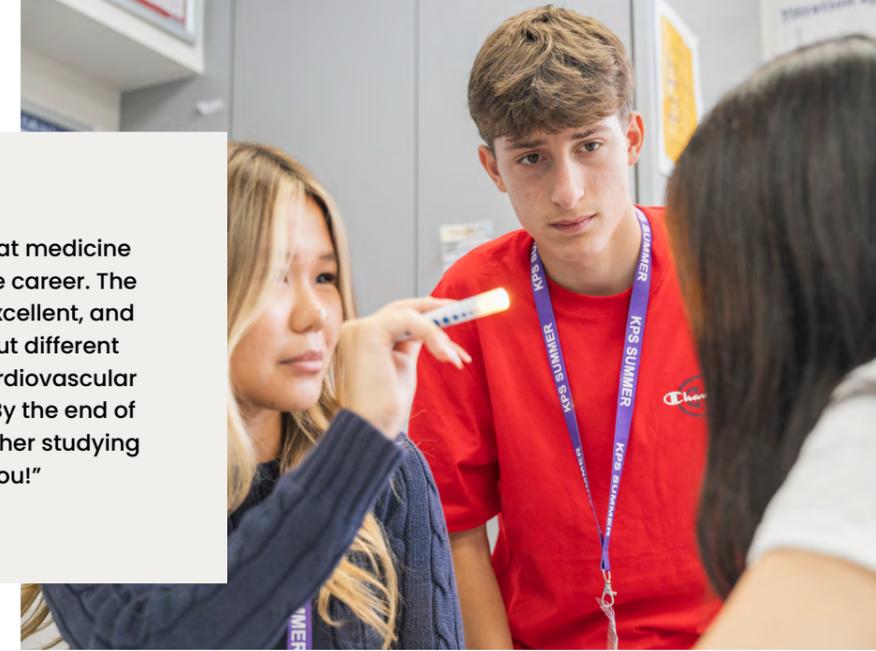

## Course Highlights

- ✓ Expert guidance on the university application process, personal statements, UKCAT and BMAT
- ✓ Exploration of a broad range of topics, from relevant chemistry theory to new medical techniques
- ✓ Practical sessions including organ dissections and laboratory testing
- ✓ Visits to medical institutions for tours, seminars, and clinical skills demonstrations
- ✓ Seminars and debates on the role of medical professionals in a wider ethical and social context

"This course convinced me that medicine is the right option for my future career. The classes and resources were excellent, and I really enjoyed learning about different specialisms like neurology, cardiovascular systems, and sports science. By the end of this course, you will know whether studying medicine is right for you!"

NICCOLO, ITALY

# ACADEMIC FIELD TRIPS

Regular field trips and excursions bring our summer students' studies to life, allowing them to make the most of the opportunities for learning that London has to offer.

Students are accompanied on academic trips and visits by their subject teachers, ensuring that these are tied back into the curriculum and that students are able to link their studies in the classroom to real-world contexts. All pathways feature at least one university visit, pre-paid admission to special exhibitions, and access to workshops with industry experts.

Central St Martins University, Tate Modern, Shoreditch Street Art Walking Tour, Immersive Van Gogh Exhibition

Imperial College London University, company visit to Revolut, Financial District Walking Tour, Museum of Brands

Royal Central School of Speech and Drama, Royal Opera House Backstage Tour, Back to the Future: The Musical

Queen Mary University of London, company visit to Turo, Science Museum and IMAX cinema

London School of Economics, Houses of Parliament tour and debate, Old Bailey public trial, London Legal Walking Tour

King's College London - Guy's Hospital tour, The Old Operating Theatre, The Wellcome Collection, Hunterian Museum

# SKILLS FOR LIFE

Our workshops help students to prepare for their future by developing the core competencies and soft skills sought after by university admissions tutors and employers.

Each Wednesday students will come together across pathways to take part in group workshops focused on the areas below.

- Public Speaking
- University Applications
- Interview skills
- Critical Thinking
- English Language skills
- Media training
- Growth Mindset
- Debate
- Leadership
- Oxford/Cambridge University

# SOCIAL PROGRAMME

In addition to their academic studies, summer students enjoy an exciting social programme which provides space for them to relax and socialise with their friends, experience the city of London, and make memories for life.

## Team Building

During their first week, students will participate in several team-building exercises and activities designed to help them to get to know one other, become familiar with their new environment, and build their confidence. Examples of our team building activities include an escape room, London scavenger hunt, and the Crystal Maze Experience!

## Weekend Excursions

On Saturday, all summer students will head outside the city and enjoy a trip to one of the historic university towns of Cambridge or Oxford. Students will have the opportunity to visit the university, learn about the city's history, and get a taste of life outside London.

On Sunday, students can choose to join a supervised excursion, heading down river to the leafy, picturesque borough of Greenwich with its famous market, fascinating history, and beautiful park featuring spectacular views of the city. Students also have the option of enjoying some free time where they can go shopping, visit one of London's many museums, or enjoy a stroll through one of its parks.

## Evening Excursions

In their first week, students are introduced to the spectacular sights and attractions of London, with group excursions to key landmarks such as the London Eye, Big Ben, and the West End.

We understand that each student works on their own rhythm, and on some evenings, therefore, students have the option of heading out into the city, or staying at the boarding house to take part in a more relaxed social activity in the common room.

Towards the end of the first week, an element of free time is introduced into the timetable, during which students can go out and explore London independently with their friends. Parents/guardians will be asked to confirm if they give consent for students to go out independently during free time during the enrolment process.

## Boat Party/Thorpe Park

To end the programme, students will enjoy either a boat party down the Thames or a trip to nearby amusement park 'Thorpe Park'.

Block 1 & 3: Thorpe Park  
Block 2: Boat Party

## Residential students will stay in our spacious boarding house, located in trendy Chelsea.

Students stay in premium shared rooms with ensuite facilities, a kitchenette and plenty of space spread across a mezzanine style layout.

Our bright and comfy common room will host initial getting-to-know-you activities, singalong karaoke sessions and cosy movie nights as well as being a place for students to relax and socialise throughout their stay.

Our dedicated boarding staff ensure summer students enjoy maximum comfort and the boarding house is equipped with electronic key cards, CCTV and a staffed reception.

- ✓ Spacious en-suite rooms
- ✓ Fully catered accommodation
- ✓ High-speed Wi-Fi
- ✓ Common areas for socialising
- ✓ Curfews to ensure safety and security
- ✓ Access by electronic key card
- ✓ CCTV
- ✓ Complimentary washing and drying facilities

# ACCOMMODATION

# COURSE INFORMATION

LOCATION: Central London

COURSE LENGTH: 2 weeks

AGES: 14 to 17

MINIMUM ENGLISH LEVEL: Intermediate, IELTS 4.5 or higher

CLASS SIZES: Maximum 12 per group

NATIONALITY MIX: Maximum three speakers of the same language in each class

## Dates

**Block 1:** Sunday 5th July – Saturday 18th July 2026

**Block 2:** Sunday 19th July – Saturday 1st August 2026

**Block 3:** Sunday 2nd August – Saturday 15th August 2026

## Fees

**Residential: £3940 for two weeks**

Includes: Tuition, accommodation, meals, weekly travelcard, insurance, activities and excursions.

**Non-residential: £1550 for two weeks**

Includes: Tuition, lunch, insurance, weekday excursions, boat party or Thorpe Park and farewell party

\*Everything is included except and optional trip to a West End musical which is an extra cost of £25

## Accommodation

Summer students stay in our modern boarding house, located just a three stops from the school on the underground. Students are chaperoned to and from school each day.

## Airport Transfers

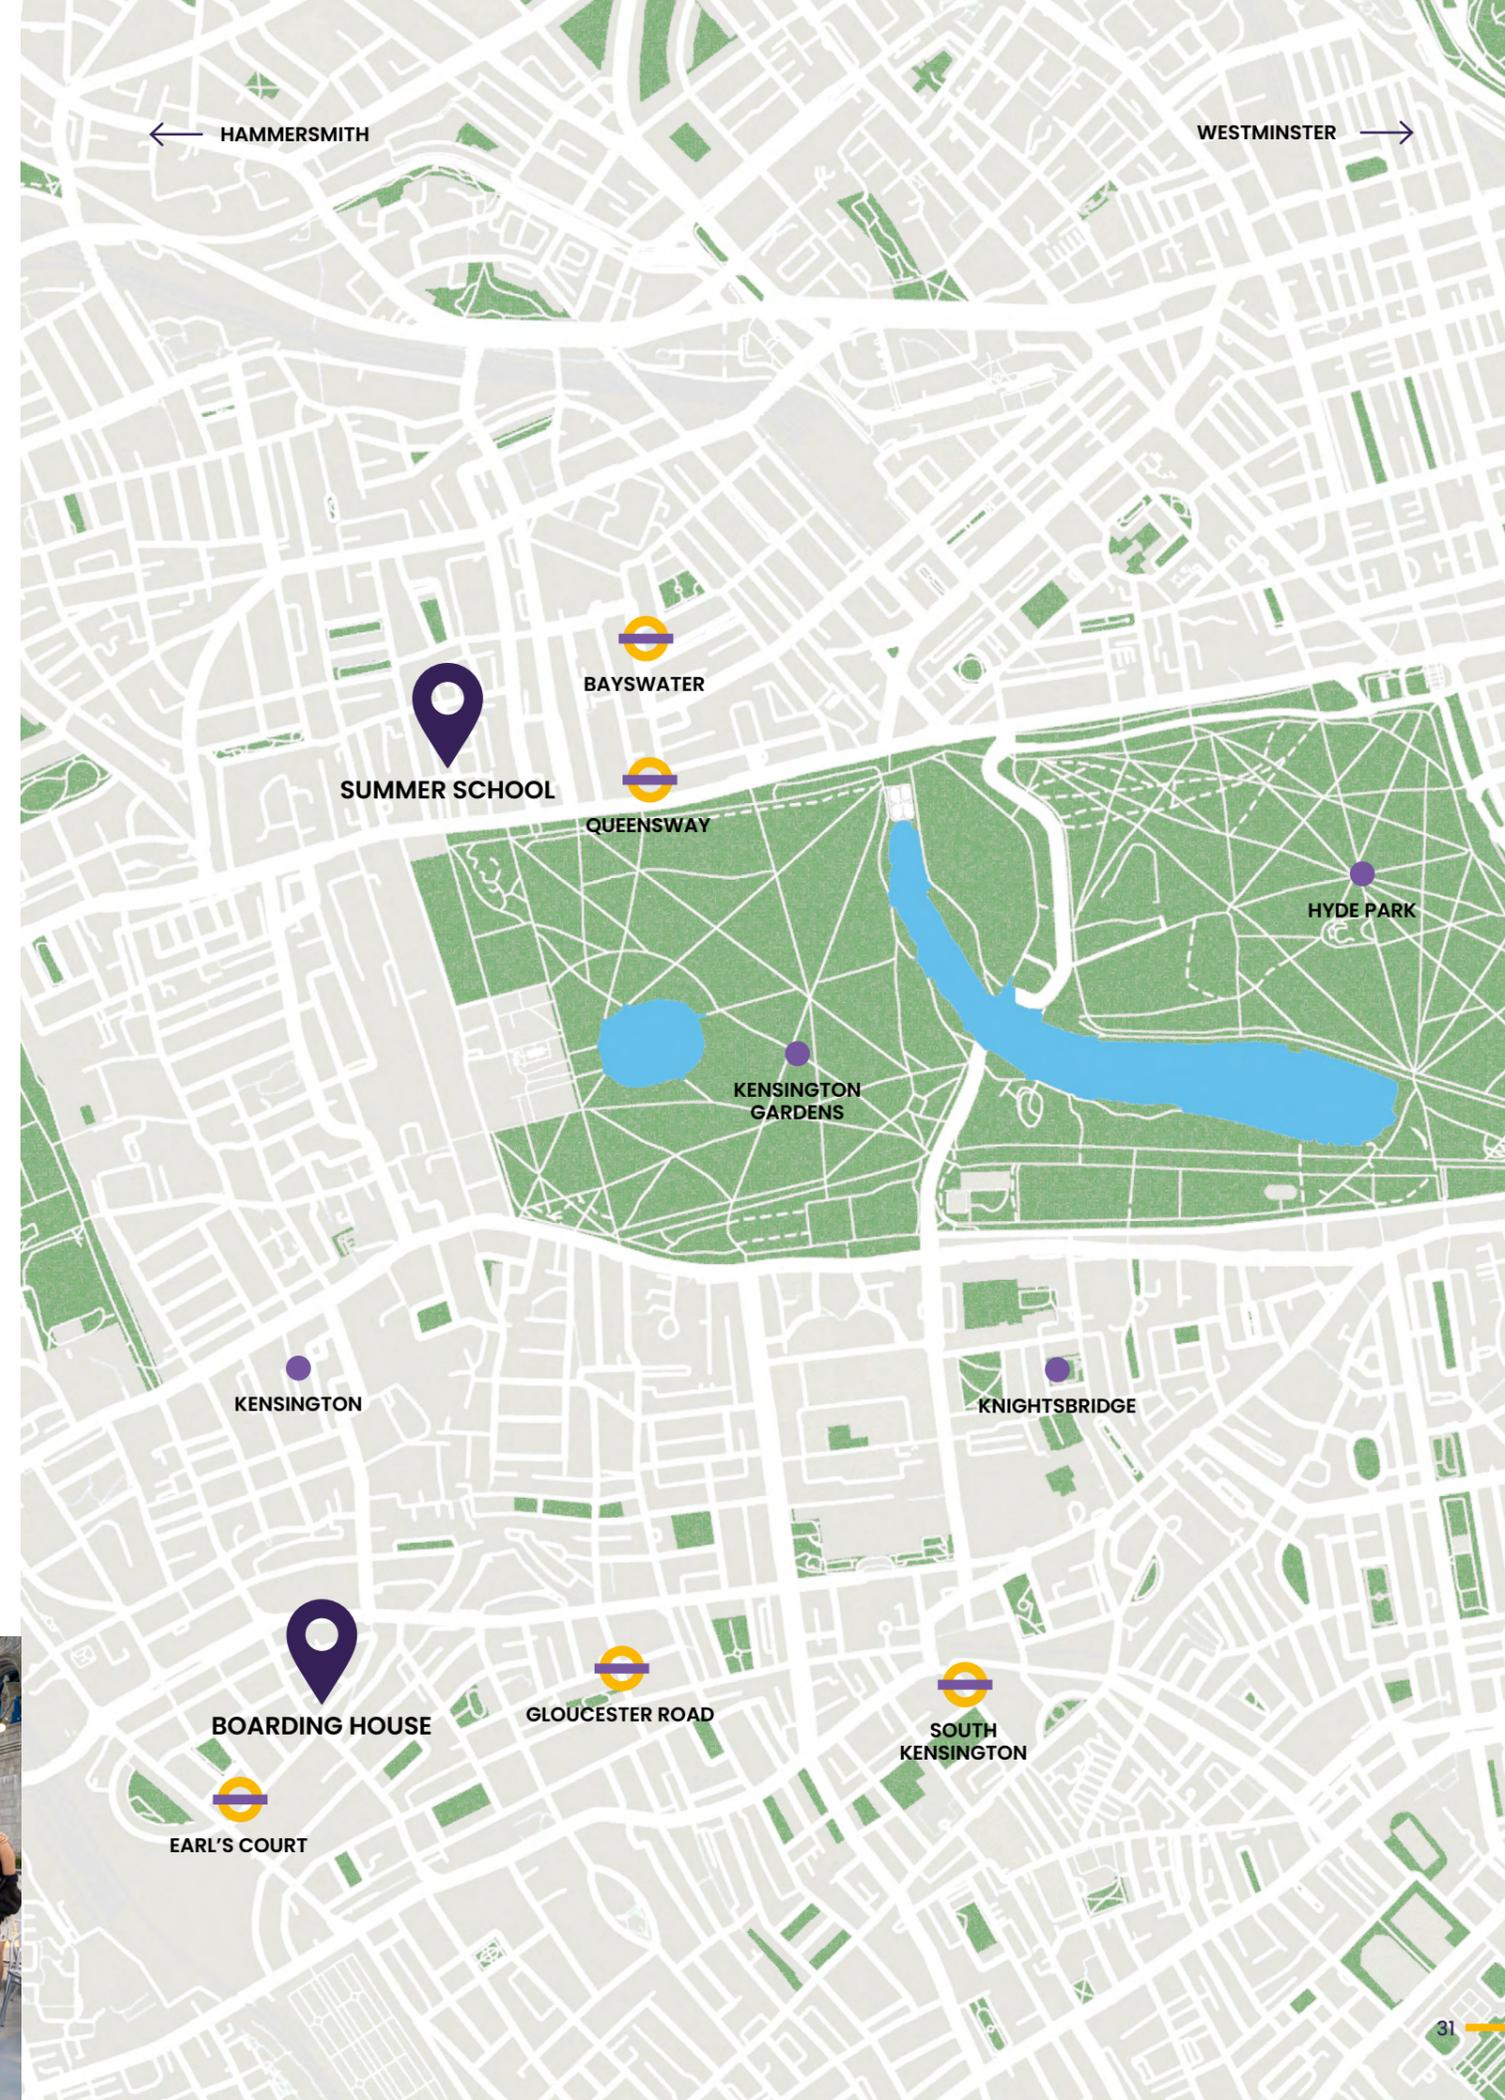

All students who book a transfer will be met at the airport by a representative and shown to their taxi to take them directly to the accommodation. There may be a short wait at the airport for another flight to come in.

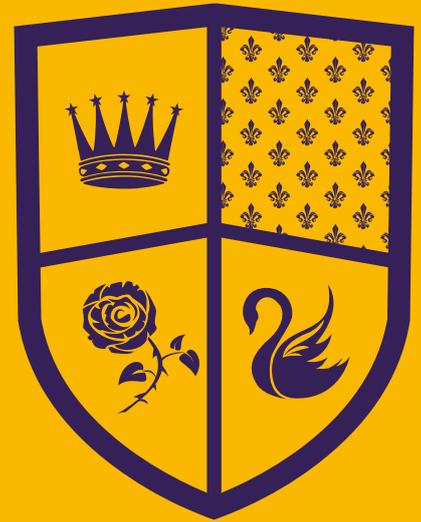

All airport transfers are charged at £120 each way.

There will be a supplementary charge of £90 each way if you use an airline's unaccompanied minors service.

## Catering

Fully catered (breakfast, lunch and dinner Mon to Sat, with brunch and dinner on Sundays). Students enjoy a delicious and varied culinary experience that promotes a healthy lifestyle.
