

Range High School

Business Education Department

The Business Education Department at Range High School prides itself on providing a challenging, supportive and engaging experience for all pupils. We are committed to ensuring the highest standards for pupils and staff and to achieving strong results across our Key Stage 4 and our Key Stage 5 courses.

We offer a wide and varied curriculum comprising GCSE and A-Level Business Studies, the Level 3 Business BTEC Diploma and A-Level Economics. These are all popular options with strong student uptake in each area; we often run 3 GCSE Business Studies groups and A-level and BTEC classes are all well subscribed at Key Stage 5.

The department extends a range of vocationally-related activities and extra-curriculum opportunities to support our learners. These include industry-related visits, visiting speakers and revision workshops. Our students are also offered opportunities to engage with externally-provided challenges and competitions on an annual basis. In enhancing our GCSE curriculum, Year 10 students develop their own 'mini enterprise' during the summer term, to operate on a designated 'Trading Day' within school.
