

# Leader of Artificial Intelligence Job Description

---

**Section:** Innoventures Education School Development Unit

**Job Title:** Leader of Artificial Intelligence (AI)

**Reports to:** CEO Innoventures Education / Head of School Development Unit

## Core Purpose

As the Leader of AI at Innoventures Education, you will play a pivotal role in shaping the future of education by leading the development and implementation of Artificial Intelligence (AI) initiatives across our schools. You will be responsible for driving innovation, delivering training sessions, and providing leadership in the adoption of new and emergent technologies to enhance the learning experience. The successful candidate will possess excellent communication skills, a proven track record in AI application in education, and a passion for transforming education through technology.

## Main Responsibilities

- Develop and execute a comprehensive AI strategy aligned with the group's educational goals.
- Provide visionary leadership on the integration of AI technologies to enhance teaching and learning experiences.
- Deliver training sessions and workshops to educators, administrators, and other stakeholders on the effective use of AI technologies in education.
- Empower staff to leverage AI tools and resources to improve student outcomes and streamline operations.
- Identify opportunities to pilot new technologies and methodologies, driving innovation and continuous improvement.
- Collaborate with diverse stakeholders including school leadership, teachers, parents, and students to ensure AI initiatives align with educational objectives and address their needs.
- Effectively communicate the benefits of AI adoption and foster a culture of openness and enthusiasm for technology-driven educational enhancements.
- Define metrics and key performance indicators to assess the impact and effectiveness of AI initiatives.

This is in no way an exhaustive list and the Leader of AI will be required to undertake any other duty as assigned to them by the CEO. This job description will be reviewed at least annually as part of the postholder's Performance Management process.

## Qualifications and Experience:

- Bachelor's degree in a relevant field such as AI, Computer Science, Education Technology, or a related discipline.
- Demonstrable leadership experience, with the ability to inspire and motivate teams.
- Proven track record of successfully leading AI initiatives in an educational context.
- Strong understanding of AI technologies, machine learning, and their applications in education.
- Excellent communication and interpersonal skills to engage diverse stakeholders.
- Ability to think strategically, innovate, and drive change.
- Knowledge of ethical considerations related to AI in education.

If you are passionate about shaping the future of education through AI, have a strong background in AI applications, and thrive in a dynamic and innovative environment, we invite you to apply for the position of Leader of AI at Innoventures Education. Join us in our mission to revolutionise education through cutting-edge technology and personalised learning experiences.
