Geography Department

Our intent statement

“Geography helps students experience the awe and wonder of the world, to understand their place in it and how they can have a positive impact at a local, national and global scale”.

The Geography Department at Edgbarrow School is a vibrant, popular and very successful department which thrives on helping our students achieve great things and become outstanding geographers.

The Geography department is made up of a highly experienced group of teachers who all work towards the same goals with the same ethos but who each have their own outstanding styles of teaching.

Geography is highly popular subject at both GCSE and A level with many students going on to study Geography at degree level each year.

We are very proud to also say we are a highly; successful department who achieve excellent results helping our students towards making excellent progress and attain the best results possible.

We are a forward-thinking department who are always looking to innovate in the classroom by using modern techniques and technologies to engage our students in the subject we love.

We are a well-resourced department with geography being taught in a suite of rooms in the Humanities block which is in close proximity to the Library and computer rooms as well as having access to a suite of lap tops all of which we regularly use. The rooms have smart touchscreen TVs. We share a room in the new Sixth Form block which also has smart touchscreen TV and access to 8 computers.

As a department we also aim to give every student the opportunity to attend a Geography field trip their time with us.

For 2024/25 we have the following trips planned *

Year group	Trip planned
Year 7	Natural History Museum
Year 8	Brighton
GCSE	Bournemouth, Dorset and Crowthorne as part of their required field work
A Level	Nettlecombe, Somerset
Years 10 to 13	Iceland

As a member of the team you will have the opportunity to go on all these trips.

*Trips are planned but may not run for various reasons'. Staffing numbers are dependent on student numbers.

KS3 - Classes are taught in mixed ability tutor groups. Below is our current curriculum map although this is liable to change as we develop our SOW and ideas as a department.

Intent – That by the end of KS3 all students will become “skilled Geographers”.

Implementation – Through the teaching of topics students will learn and be assessed on the following core geographical skills -

- Describe
- Explain
- Evaluate
- Map Skills
- Numeracy

Each topic will have to have a “formal assessment” on one of these skills (ATL) and each end of term exam will have to assess all 5 core skills (Banded). Each lesson taught will have to incorporate at least one of the skills at some point in the lesson.

Impact – The students are equipped the right core Geographical skills to move on to GCSE Geography.

GCSE and A - Level

We use the AQA Specification at both GCSE and A level. As we are a popular department it would be expected that all members of the team teach and contribute ideas to the GCSE specification. For the right candidate involvement at A level would also be welcomed.

We are a supportive department and as a department we all share our good practice and we actively encourage the sharing of lesson plans, resources and ideas.

In recent years we have worked hard to improve our examination results at post 16.
