We hold high expectations and support each other to achieve and exceed them. Our location, 30 minutes from the centre of Rome and 10 minutes from the coast, provides us with an amazing environment in which to work and live.

GLOBEDUCATE

Globeducate is one of the world's leading international K12 education groups, a network of more than 50 premium international schools and online programmes educating more than 25,000 students in nine countries and on three continents.

A Globeducate school inspires each student to find their voice in this world, to encourage them to understand world events, to think about their values and what is important to them, and to challenge ignorance and intolerance. A Globeducate school creates opportunities to connect with students from our schools across the world to come together, in person or online, for sport, music, arts, academic challenges and to work with others to help build a more equal, fair and sustainable world.

The fundamentally international character of Globeducate provides unique advantages for students at our schools, allowing them to enjoy excellent foreign exchange programmes and international activities and events. This not only enriches the multi-cultural nature of the educational environment and life experience of our students, but also generates companionship, and reinforces value-systems. In Globeducate schools, students, teachers, non-teaching staff and parents form part of one big family as we aim to build a network to last a lifetime across the globe.
