## Distinctively Durham

### Working in Durham.

Vanesa Whay -

Principal

All Staff need to ready for the challenge of a developing school and will be part of the school family and community. Like Durham UK, the staff will help to create and warm and secure learning environment where dedicated staff support and develop the girls in our school. This I feel is even more relevant in this current climate of COVID19. At Durham School for Girls we aim to really support staff in this transition of being away from home and starting a new life abroad. This is a challenging time for all teachers, and we want to ensure that our staff are ready for their life in Doha.

The school puts a lot of emphasis on being the best we can be. This is for staff and students alike. Welfare, especially during this time is super important. We have strong programmes to support the staff and the school has a welfare team that arranges events and support for everyone. Living in the school residence ensures that people are never alone, but having individual apartments gives staff the independence to create a home/school balance. Moving to any country is a challenge currently and teaching has changed during this time. However, at Durham we want to continue to adapt to provide the best learning for our girls and develop new skills in our teachers. Durham is working on a blended learning programme and inline with the requirements from the MOE and MOPH.

DSGD is leading the way in learning. We have joined High Performance Learning and are working to become a World Class School. Also, we are the only school in Qatar offering exciting opportunities for girls to attend college courses and gain credits whilst in Year 12 and 13. Our staff can grow and develop in the Durham environment with CPD opportunities and responsibility.

This is an exciting new time and a chance for Staff to be part of something old with the heritage of Durham UK, and something new with Durham School for Girls. This is a first for Qatar and I am delighted and honoured to lead this project.

## Living in Qatar

---

*As a woman moving to the Middle East, you want to be sure that it is a country you can live and work in easily. Doha is a very easy country to adapt to. It is an amazing place and very safe.*

*Qatar has handled the COVID situation incredibly well and has been very strict in its approach to the Pandemic. This has restricted movement and travel internationally, however the country is thriving and hotels, shops etc are open.*

*It is a city of contrasts of heritage and tradition against modern and innovation. Over the next couple of years there will be a lot of building and development as the metro system is installed throughout the city. There is a lot of construction in preparation for the World Cup, but all of this enhances the city and its facilities.*

*Dress code – Respectful – In public places, knees and shoulders must be covered. Women do not have to cover their heads, other than by choice in public. In international hotels and private beaches, women can wear normal swim wear and shorts.*

*Alcohol – Westerners can purchase alcohol in specific places and it can be consumed in their homes. In all the main international hotels alcohol can be bought in all the bars and restaurants.*

*Shopping – Qatar is the land of the Malls. It is any shopper's paradise. Prices are reasonably inline with Europe and the US. Shops include all major Highstreet retailers. Topshop, H&M, M&S, Gap, IKEA....*

*Things to do – There is always so much going on in the city and around, amazing beaches and incredible sporting facilities, music and art festivals and international events. World Championships for swimming, gymnastics and tennis, and of course the 2022 World Cup!!!*

*Travelling throughout the Middle East from Doha is not easy; however, Doha is a major international hub and access to India, Turkey, Jordan, Oman are all a short distance away. We hope this will return post covid.*
