Nick Bowen—Executive Principal

Claire Huddart—Principal

At Horizon Community College we have a challenging ambition of raising achievement to a level that would put us in the top 10% of schools in the country. We have a vision for redressing the imbalance, re-shuffling the pack and give the young people of Barnsley a better hand — a better deal — breaking 'vicious circles' of underachievement and low aspirations and transforming the lives of every young person.

We want young people to leave the college well qualified and with a unique skill set that will enable them to stand out from the crowd. We want young people to be in possession of a passport of leadership and employability skills that will enable them to pursue exciting careers, attend prestigious universities, complete dynamic apprenticeships and play leading roles in regenerating this area.

The expectation that 'We are Positive Role Models' focuses on developing character and skill set of all students. This is underpinned by the College core values which help to prepare every student for a lifetime of success. We offer a quality of education that is tailored to the needs of and meets our ambition for each individual student. We expect every leaner to be challenged in every lesson, every day — and to challenge themselves. This is coupled with a high-quality programme of Careers Education to ensure that every student is 'school ready, work ready and life ready'.

Successful education is also about working in close partnership with our families and the wider community to ensure our students succeed in each School year so that every student is prepared for the next appropriate phase of their education. We work together to empower our students to believe that anything and everything is possible.

We heavily invest in the growth and development of our entire workforce, so they are prepared for the next phase of their careers. We promote 'one team' working hard to support each other. The ethos of staff development is reinforced by an offer of continuing professional development designed to respond to strategic priorities.

We are focused on developing students and staff at every level. We strive to embed a culture of hard work, opportunity and aspiration to enable every student and every adult in the College to simply "be the best, that they can be".
