King's Academy Binfield

Dare to be Remarkable

January 2020

Dear Applicant,

Thank you for taking the time to find out more about the role of KS3 Maths Lead at King's Academy Binfield (KAB) and King's Academy Oakwood (KAO).

As stated in the advert, this is quite possibly the greatest opportunity of your career so far; the chance to work in genuine partnership to design and shape innovative and creative pedagogy, policy and practice in a new all-through academy.

We opened our all-through school in a superb new building in September 2018 with 120 fabulous students, who were joined in September 2019 by a further 150 year 7 students and nursery through to year 2 students in our two primary phases, KAB and KAO. We will rapidly grow year on year to our capacity of over 1800, 3 - 18. Both academies will be run cohesively sharing the same leadership, staff, values, curriculum, opportunities and expectations of excellence.

This provides an outstanding opportunity to ensure from the outset that all we do and how we do it is based on the most outstanding practice which enables all our students to flourish. Our staff team will also grow rapidly year on year as per the students. This means all staff will be expected to commit to all aspects of academy life to ensure the students get the exceptional education and experiences they deserve.

The successful applicant will work with staff, parents and of course students, to ensure the very best learning experience within the maths department and across the academies for all. Great progress of each and every student is essential. You will commit to our moral imperative of 'whatever it takes' and to the ethos of embedding a genuine thirst for learning and relentless pursuance of excellence whilst always considering the well-being of the students and the staff.

We are looking for someone who is creative, flexible and a great team player with a proven track record of success. I don't expect you to have had experience across all key stages however you will be excited by the prospect of supporting the creation of a learning journey from 4 to 18 and will be eager to learn about outstanding primary and secondary pedagogy and how that might impact on teaching and learning throughout all key stages. As stated in the advert, potential is as important as experience.

The successful post holder will work in close partnership with the Director of Maths and Computing.

Having been hugely oversubscribed for our first two cohorts, we are anticipating the same for our 2020 admissions into our year 7 and both our reception cohorts. It is incumbent on us therefore to honour the trust the community has placed in us by ensuring KAB and KAO provide an excellent all round education.

St. George's Park, Binfield, Bracknell,
