## *A Complete Curriculum*

*We adapt our teaching approach to suit each child.*

Our teachers are highly skilled, motivated and compassionate, and they love their work.

In Nursery to Year 2, we integrate academic rigour with 21st-century skills. Our creative curriculum provides depth in the coverage of skills in all subject areas, and allows children to recognise the links in their learning. Children are interested, excited and curious to learn and discover.

In Year 3 to 5 your child will enjoy the continuity of working daily with their form tutor, as well as with subject specialists. By Year 6 they will be ready to learn every subject with a specialist teacher. In small classes with average of 20 pupils, we use both traditional teaching and learning methods and innovative approaches using IT, inquiry-based projects and peer-to-peer learning.

## *Taking Soft Skills Seriously*

The schools in Mill Hill Education Group have a shared approach and a curriculum that runs through from ages 3 to 18. A central element of this is our active teaching of interpersonal skills, emotional intelligence, teamwork and leadership, and your child's ability to think on their feet and cope under pressure. At Mill Hill Thailand, we nurture these skills from early childhood, giving your child the ultimate head start in our ever-changing world.

## FUTURE SKILLS

THIS IS AN EXCITING PART OF OUR CURRICULUM WHICH EQUIPS CHILDREN WITH THE SKILLS NEEDED FOR 21ST-CENTURY WORK AND LIFE.

“Pupils take part in the future skills programme which emphasises critical thinking and skills development across a wide range of technical, aesthetic and creative areas. This supports pupils to focus on continuous improvement rather than relying entirely on grades to reflect performance and achievement.”

### COMMUNICATION

Clear communication, the ability to articulate opinions, motivate others through speech, and give coherent instructions are essential skills in both daily life and the workplace. To support the development of these skills, our curriculum includes opportunities for students to learn various forms of communication—oral, written, and non-verbal—tailored to different contexts and purposes. Additionally, we provide programs designed to enhance students' entrepreneurial skills, fostering the confidence and capability to apply their knowledge in real-world scenarios.

### COLLABORATION

Effective collaboration enables diverse groups of people to come together and make informed, well-rounded decisions. The ability to work respectfully and adaptively with others is a crucial skill we emphasise through various activities that promote teamwork, problem-solving, and communication in dynamic environments.

### CREATIVITY

Creativity is now widely recognised as a key driver of the global economy. The ability to innovate and demonstrate originality is a crucial skill that we nurture through activities designed to inspire imaginative thinking, problem-solving, and practical application of ideas across various disciplines.

### CRITICAL THINKING

The ability to think reflectively and independently empowers students to become active learners. We foster critical thinking by encouraging students to analyse, evaluate, interpret, and synthesise information in a variety of contexts. Our curriculum is designed to engage students in hands-on activities and problem-solving tasks that promote deeper understanding and independent thought.

### CALMNESS

Wellbeing and mental health are central to our ethos. The ability to remain calm enhances concentration, emotional regulation, and overall success. Our curriculum integrates activities that promote mindfulness and emotional wellbeing, taking advantage of the natural environment to support students in managing stress and fostering a balanced state of mind.

### COMPASSION

We strive to cultivate pupils who are helpful, kind, and compassionate members of society. Compassion is actively promoted through various activities that encourage empathy, leadership, and collaboration. Students have opportunities to practice these skills in a supportive environment, allowing them to develop their abilities and grow as responsible individuals.

### CHARACTER

At Mill Hill Thailand, we are passionate about bringing out the best in each pupil. Our curriculum provides opportunities for students to discover their strengths in an engaging and enjoyable learning environment. The challenges they face, whether in problem-solving or presenting ideas, play a vital role in building character and resilience.

## CHILDREN THRIVE WHEN LEARNING AND PLAYING TOGETHER.

GIRLS AND BOYS  
INTERACTIONS HELP ALL  
PUPILS DEVELOP STRONG SOCIAL  
SKILLS AND EMOTIONAL MATURITY,  
PREPARING THEM FOR ADOLESCENCE  
AND ADULTHOOD

In our co-educational environment, pupils learn that their aspirations and choices are not limited by gender. Working alongside peers exposes them to diverse perspectives and approaches, fostering social awareness and emotional growth. This natural reflection of society helps develop pupils who are well-rounded and understanding of different viewpoints

“Pupils are keen to push themselves by choosing appropriate challenge levels and enjoy the process of learning.”
