

NEWQUAY
EDUCATION TRUST

AN ALL-AGE CROSS PHASE
FAMILY OF ACADEMIES
GREATER THAN THE SUM OF ITS PARTS

ABOUT US...

NET was created in September 2014 and is based on the fundamental principle of collaboration to secure educational opportunity and excellence for all. At the heart of our vision is the belief that education is a seamless and continuous journey and that our core purpose is to create a holistic education provision which is "greater than the sum of its parts".

We want the children and young people in all our academies to become happy, healthy and well-educated human beings, well prepared for the next phase of their education, and capable of enriching and improving their communities. The creation of NET enables all its academies to share resources and create efficiencies in a self-improving, school-led system. NET is wholly committed to working in close partnership with other MATs, Academies and Schools, and is determined to use its talent, expertise and capacity to improve life chances for children.

BEING THE BEST WE CAN BE...

- The needs and aspirations of children and young people come first: everyone in NET strives to do what is right for all of them in our care.
- All our academies have a shared moral and values-driven purpose with a strong Spiritual, Moral, Social and Cultural emphasis.
- Education is a holistic, and seamless process, with each phase building successively on the last.
- Our academies are built on a culture of high expectation/aspiration and continuous improvement.
- We are passionate about "Exceptional progress for every student, in every lesson, every day."
- We are a collaborative family of academies: each academy retains its unique, local identity, but we believe in:

GOING FORWARD, FASTER, FURTHER - TOGETHER.

NEWQUAY EDUCATION TRUST OFFERS...

- A commitment to ensuring high quality provision for all within an ambitious, dynamic and socially responsible Trust framework;
- An established track record of improvement in all phases with opportunities to share practice and learn from the best.
- A positive reputation locally and regionally as a high quality MAT with strong leadership and governance.
- A record of successful bids to EFA for capital improvements, inc. PSBP2 and CIF.
- High quality professional development for all staff through our status as Lead Academy for Kernow Teaching School Alliance.
- The opportunity to play a significant role in building an innovative and sustainable school to school improvement model.
- Freedom for local Leadership and Governance to drive school improvement, whilst Trust-wide capacity allows central management of statutory functions.

THE NET APPROACH...

- Cross phase groups sharing practice led by expert practitioners/ SLE's
- Growing talent and expertise: CPD and ITT with other strong MATs through Teaching School opportunities
- Academies within Academies – each phase led by Raising Standards Leaders focusing on robust interrogation of data
- Trust-wide emphasis on “Quality First” teaching and targeted intervention
- Entitlement curriculum underpinned by core learning skills and mind sets
- Leadership Development
- Values based approach with shared policies and practices.

SHARING RESOURCES AND CENTRAL SERVICES...

- CEO/ NLE and School Improvement Partner Support for Improvement Planning, Self Evaluation, Leadership Development, Inspection guidance
