

Executive Principal: Mr Stephen Munday, CBE, M.A.  
West Street, Comberton, Cambridge CB23 7DU

**KEY STAGE 3 MATHS CO-ORDINATOR**  
**MPS or UPS with TLR 2**  
**To start April 2019 or September 2019**

We are a highly successful, community mixed comprehensive school with Teaching School status in a pleasant rural setting only 5 miles from the centre of Cambridge. We currently have around 1800 11-18 pupils on roll including our sixth form centre that opened in September 2011.

Our pupils are well motivated, staff morale is excellent and examination results at KS4 are outstanding: in summer 2018 the total grades at 9-7/A\*-A were 42%, 9-4/A\*-C were 92% with 88% of pupils achieving at least a grade 4 in English and maths. Our Progress 8 figure in 2018 was +0.78 which placed us in the top 5% of all secondary schools. At KS5, the Sixth Form's results are in the top 5% nationally for student progress made against predictors, with 36% of all grades in 2018 at A\*/A grades. The school has consistently been rated by Ofsted as Outstanding over very many years; at the last full inspection we were rated as Outstanding in every measure.

We are seeking to appoint an excellent teacher to develop our leadership capacity within the maths department. Attainment in maths is exceptional: 89% of pupils were awarded at least a grade 4 at GCSE, with 40% awarded at least grade 7 and over 10% gaining the highest grade 9. At KS5, 35% of pupils were awarded at least a grade A and 88% of pupils awarded at least a grade C.

For suitably experienced candidates, we are able to offer the opportunity to teach lessons at Comberton Sixth Form. This could be teaching a class from our large cohort of A Level Maths or Further Maths pupils. As early adopters of the Core Maths qualification you could also teach this exciting new course.

Our philosophy is to play to the strengths in our team: we have colleagues who are involved with NRICH and the teaching of problem solving. Others specialise in sixth-form teaching and have attended or delivered the TAM or TFM courses. Comberton Village College is now an AMSP Partner school and an AMSP Area Coordinator is based at our college.

The department are involved with a number of NCETM and Maths Hub projects and have been working with ICCAMS to develop the early algebra skills in our youngest pupils. We are proud to be a teaching school and many members of the department have a significant focus on initial teacher education and continuing professional development. We look forward to welcoming new team members and the ideas they bring to the department.

We have a strong track record of supporting and developing our teaching staff. Our programme includes:

- Supporting colleagues moving into their first leadership role through the Developing Middle Leaders programme. Or, for those with more experience, the NPQML programme.
- For experienced teachers the school appreciates the need for time out to reflect on what makes excellent practice. Teachers are offered a place on the Developing Outstanding Teaching programme which features four days looking at high-level skills

and strategies for the classroom including a focus on how coaching and mentoring can develop other colleagues and lead change in the department.

- Many of our maths teachers have been supported to complete their Master's in Education degree.
- Access to the development opportunities offered through our teaching school alliance ([camteach.org.uk](http://camteach.org.uk)) and our Maths Hub ([cambridgemathshub.org](http://cambridgemathshub.org)).

This is an exciting time to join our maths department: Cam Academy Trust are proud to be the base for the Cambridge Maths Hub. In this role we are helping every school and college access locally-tailored and quality support to develop the teaching and learning of mathematics. Many new members of the Comberton Maths department have gone on to lead workgroups for the Maths Hub.

**Closing date for applications is 9 am Monday 15 January 2019.**

We reserve the right to bring forward the closing date if we consider that we have received an appropriate number of suitable candidates for the post.

*The Governing Body is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment. An Enhanced DBS check will be carried out for the successful candidate.*
