The Henry Box School

Founded 1660

Introduction from the Headteacher

The Henry Box School is a successful, thriving mixed comprehensive school of over 1,200 students situated on Church Green in the historic market town of Witney. The school was founded in 1660 by local man, Henry Box, and the beautiful original school building is still in daily use in the centre of our attractive site. We are proud of our history and tradition and very excited about our future.

The school was inspected by Ofsted in November 2017 and was judged as 'good' in every category. The GCSE examination results in 2018 were good, with excellent 'A' Level results.

At The Henry Box School, we are fortunate to have fantastic staff, both teaching and support, experienced and supportive governors, and students who have positive attitudes and are keen to learn. Students and staff enjoy respectful relationships, and above all we are a very happy school.

Professional Development is central to our work and we offer opportunities and support for all staff to develop their skills. From our excellent NQT programme through to our 'Future Leader' programme, we are committed to recruiting and retaining the best. Being the lead school in our multi academy trust, we can also offer the opportunity for colleagues to develop their careers beyond one school if this is their area of interest.

The Henry Box School is committed to promoting the welfare of children and young people and expects all staff and volunteers to share this commitment. The appointment will be subject to enhanced DBS clearance, satisfactory references and other relevant pre-employment checks.

All staff at The Henry Box School have a responsibility to co-operate with and follow all Health and Safety requirements in accordance with the school Health and Safety Policy.

If you are interested in working in a forward thinking organisation, then Henry Box could well be the place for you. Our commitment to learning, leadership and literacy can found in our latest Ofsted report attached.

Further information about the role is given below.

Yours sincerely

W J Hemmingsley

About the role

Position: Teacher of Mathematics

Working Hours: Full time Permanent

Required: April 2019

We are looking for a well-qualified, committed and enthusiastic Teacher of Mathematics to join our successful 11-18 comprehensive school. This is an excellent opportunity for a talented and well qualified teacher to join a strong and successful Mathematics Faculty. Applications are welcome from NQTs or experienced teachers. Visits to the school are welcome, by prior arrangement.

Mathematics Faculty

Our faculty ethos is centred on developing autonomous learners who have a deep relational understanding of key mathematical concepts. We share and continue to work on even better ways to do this. Explicit teaching of problem solving backed up with deliberate practice of identified gaps and regular low stakes quizzing work to develop fluency. We have outstanding exam results in year 11 and year 13 but are very proud of the fact that we achieve this through a constant drive to improve the way we explain and model mathematics to *all* students regardless of their prior attainment. A shared team room; collaborative planning meetings and pedagogy focussed faculty meetings mean that new and more experienced staff support each other constantly in our work and outside. We really are quite familial!

The Henry Box School

Founded 1660

We base much of our practice on evidence from research and have links with the Oxford University Department of Education, taking interns on placement in pairs, having teachers who did the Oxford PGCE themselves as well as taking part in research projects.

A key feature of our faculty is our commitment to promoting learning goals rather than performance goals for both our students and for our staff. We run highly popular study groups twice a week for KS4 students and lunchtime HW support for KS3. Students are enabled to come and seek help on the specific areas of maths they need to practise or seek help with. A departmental database records question level detail on assessments and allows us to efficiently give detailed feedback allowing us time to formatively plan next steps.

Staff monitoring is non-judgemental and formative. We have worked collaboratively to write feedback, assessment and behaviour policies that work for us and for the students. Teachers are given opportunities to contribute in a variety of ways to the running of the faculty as soon as they feel confident. For example, by running primary school master classes and taster sessions; organising sixth form trips to open lectures at the Oxford Mathematical Institute, coordinating arrangements for the UKMT individual and team maths challenges. The whole school professional development programme is flexible and allows staff to focus on developing subject knowledge as well as more general skills. For example, in recent years we have had staff complete the Oxford University Masters in Learning and Teaching, the Teaching A level Mathematics course at Warwick University and others have completed online KS5 subject knowledge courses run by MEI. We regularly attend Maths hub and Oxfordshire Mathematics Community network meetings and several staff have led sessions at Coffee and Pi events.
