

HANGZHOU DIPONT SCHOOL OF ARTS AND SCIENCE

|
DIPONT INDEPENDENT SCHOOLS

Hangzhou, often referred to in China as "Paradise on Earth," is the perfect place to live and work. It has all the comforts of living in a big city while retaining its stunning natural beauty. Teaching internationally in Hangzhou will be the best decision you ever make. We offer a highly competitive package; our school grounds and facilities are second to none, and we have a focused student body that shares a love of learning. Our teachers are offered opportunities for professional development, and staff wellbeing is at the heart of the school. Whether you are new to international teaching or are experienced, a position at Hangzhou Dipont School of Arts and Science awaits you.

Executive Principal
Andrew Bunt

Hangzhou Dipont School of Arts and Science

The staff at HDSAS are committed to creating a school that excels in all respects, from top-tier academic standards to holistic education through sports, music, and the expressive arts.

About Hangzhou

Hangzhou is the capital of Zhejiang Province, an important city in China, and recognized for its history, prosperity, and beautiful natural scenery. It is also the designated city for the development of education and technology in China. Yuhang District, which has experienced significant growth and development, and is home to the technology giant Alibaba and more than 10,000 high-tech businesses, hotels, shops, and restaurants.

About Dipont

Dipont Education is at the forefront of changing the way education is thought about and delivered in China. Driven by its mission to provide quality education that equips young people for success, Dipont has been a pioneer in the development and localization of international education since the 1990s.

Years of exploration, partnered with experimentation, have given Dipont a rich insight into China's K-12 educational landscape, and a unique and innovative approach.

Through establishing and managing schools with elite Chinese and international partners, Dipont has built a strong reputation for its ability to balance eastern and western educational philosophies.

In the years to come, Dipont will continue to offer quality international programs, engage partners and stakeholders in meaningful dialogue about education, and ultimately, drive positive changes in China's K-12 sector.

For more information about working at our schools, visit www.dipont.com, or get in touch with our recruitment team via careers@dipont.com.

Our Partners

In Hangzhou, our collaboration is with The High School Affiliated to Renmin University (RDFZ). RDFZ is widely regarded as the top high school in mainland China and is a member of the G20 group of schools. With a main campus in Beijing, the school has recently established a network of branch schools both in and outside of Beijing.

KING'S COLLEGE SCHOOL
WIMBLEDON

King's College School, Wimbledon is an independent day school in London and is considered one of the most academically successful schools in the world. In 2014, Dipont began a partnership with KCS to establish a series of schools in China. This network includes the Wuxi Dipont School of Arts and Science, Hangzhou Dipont School of Arts and Science, and Dipont KCS Chengdu.

A learning community aspiring to excellence

HDSAS represents a new standard of bilingual education in China. It provides for both local and international students via an innovative model that combines Chinese and western approaches to learning and academic excellence, in the context of first-rate pastoral support and opportunities to excel outside the classroom. Our goal is to graduate confident, articulate young people with a broad set of life skills who will go on to attend universities across the world.

The facilities at HDSAS are outstanding and our world-class campus includes wonderful teaching and recreational spaces, numerous well-equipped laboratories, 800-seat theatre, a 50-metre swimming pool and excellent sports facilities.

- **Kindergarten:** Bilingual curriculum based on Chinese and international education systems
- **Elementary & Junior High:** Chinese National Curriculum, UK Curriculum
- **High School:** IGCSE and A-level, with the potential for IBDP to be added

An unmatched variety of co-curricular activities

Our schools offer hundreds of co-curricular activities every week. Co-curricular activities are an integral part of the educational development of every child attending a Dipont school. The skills they learn outside the classroom through teamwork, problem solving, performing and physical activities ensure they are developing vital 21st century skills: critical thinking, creativity, collaboration, communication which are required for success in a rapidly changing, digital society where the application of knowledge becomes more important than its acquisition.

World-class
learning environments

Who are we looking for?

We are seeking to appoint highly talented individuals in all areas of expertise who can share in our ethos, enjoy working collaboratively and cross-culturally and have the passion to contribute to the development of an outstanding school.

You will need a formal teaching qualification, excellent classroom practice and well-developed subject knowledge.

Benefits

-  Highly competitive salary levels
-  Highly competitive housing allowance
-  Annual return airfare for employee and dependents
-  Medical insurance for employee and dependents
-  Full tuition support for employees with up to two school-age children
-  One-time arrival relocation allowance and free hotel stay while looking for accommodation
-  Fully paid holidays: Summer, Winter and other national holidays
-  Professional Development opportunities

A highly experienced operational team exists in each school that will support every aspect of the move to your new school, including visa application and accommodation.

Professional development includes a thorough orientation for new staff and ongoing contact with experts in the field. Internal career path opportunities are open to capable and high performing educators, with the potential to move into curricula or program management roles.
