What our learners and graduates say...

96% of learners at BCT say their overall experience is good. Here's what they had to say...

"The teachers always find time to help."

"I love the small class sizes, and the fun environment created."

"I get to do something I love with other people who have the same interests as me."

Not only did the college give us the tools and knowledge to succeed, they prepared us for life as creatives of the future.

If it wasn't for BCT there's no way I would have become the person I am today. Thanks for helping me find myself!"

BCIS Additional Learning Support Tutor

Big Creative Independent School (BCIS) is a small well-established school based in Walthamstow, East London with a long track record of delivering positive outcomes for Alternative Provision learners and sits within the wider Big Creative Training college (BCT). Our mission is to re-engage and improve the lives of young people through high quality training and creative industry experiences. The outcome being to ensure our learners progress to higher level courses on their journey to becoming empowered to lead purposeful lives with integrity.

BCIS specialises in working with young people in year 10 and 11, from disadvantaged backgrounds who are passionate, creative and interested to find out more about the creative industries. These young people have a wide range of issues and experiences that have had a negative impact on their educational experience to date. Consequently, their current personal and social development, behaviour and academic progress may not reflect their true ability. Often mainstream schools were unable to engage them enough in their interest or provide the individual support needed for them to ultimately be successful.

The BCIS curriculum has high expectations for all learners regardless of students starting point; the aim is that by the time students complete the curriculum, they will be better prepared for the challenges to come and will be empowered to lead purposeful lives with integrity.
