

Classroom Teacher (Science/Chemistry)

Empowering to Excel by Learning Together

We are now seeking a suitably qualified teacher to join us at a very exciting stage of development for the school. We have a new Science, Technology and Sixth Form block that was built for our increased intake in 2017/18. Science is a popular set of subjects within the school and is currently delivered at both GCSE and A Level.

This post would suit an experienced teacher but applications are equally welcome from Newly Qualified Teachers. The ability to teach Chemistry to GCSE Level is essential, as is a commitment to supporting extracurricular work within the science department. Applications by staff seeking a part-time contract will be considered and viewing the school is recommended to all applicants. This post can offer a September or January start date.

Closing date: 4.00pm on Friday 21st June 2019

You will be required to complete an Enhanced DBS check.

We are committed to safeguarding and promoting the welfare of our pupils and expect all staff and volunteers to share this commitment.

We reserve the right to interview and appoint a suitably qualified candidate prior to the closing date.
