January 2018

Dear Colleague,

Teacher of Science

Thank you for your interest in this post. We are looking to appoint a new colleague who is well-qualified and able to teach science at GCSE and physics or chemistry at A level.

Science is extremely popular at A level with big numbers in biology, chemistry and physics as well as students studying applied science. At GCSE the department achieves fantastic results and last year was ranked in the 4th percentile nationally. Science is a hugely successful part of the school and we hope that you will be able to help it become stronger still.

Balcarra is an excellent place to teach. We have friendly staff, pupils who are keen to learn and supportive parents. We work in attractive buildings, superbly-equipped, on a beautiful site. We are a teaching school, a maths hub and a host school for STEM, and professional development is one of our major strengths. The post is open to both experienced and newly-qualified teachers and you will be assured of an excellent induction programme if appointed.

I hope that having read all the details and perused our website you will be keen to apply. Please submit your application by Monday February 19th 2018, at **9am**. Interviews will then take place shortly afterwards.

I look forward very much to hearing from you.

Yours sincerely,

Headteacher
