

The Charter School

Excellence for All

The Charter School was founded in 2000 with the clear commitment to become an exceptional and inclusive community school that transforms the life chances of our young people. This commitment still underpins everything we do.

We believe that all our young people have the potential to achieve in school and succeed in life. We are committed to our pursuit of the highest standards possible in education and we are united in our determination that all students will excel regardless of their starting points or personal circumstances.

We want all our students to flourish and to become creative, confident and caring citizens who are happy in themselves, excited about learning, and ambitious for success. They will leave us ready to participate fully in our democratic society and prepared to face the challenges and opportunities of the 21st century.
