

Wootton Academy Trust

Computer Science and ICT Department

The Computer Science and ICT Department has facilities at both of Wootton Academy Trust's schools.

Computing and ICT teaching at KS3 and KS4 takes place at Wootton Upper School where students follow a curriculum of Computing in Year 9 and then follow on to the Edexcel CiDA course into Year 10. Students also have the option of studying GCSE Computer Science in Years 10 and 11.

GCSE Computer Science results for the department are good and have led to a good uptake in the Sixth form.

Outcomes in the Edexcel CiDA course are very impressive.

KS5 teaching takes place at Kimberley 16 - 19 STEM College, a state of the art building and facilities which opened in 2013. The environment, facilities and ethos ensure a vibrant and productive learning environment for all. In the Sixth Form we offer Computer Science and a BTEC in IT.

At Wootton there are 5 dedicated ICT suites along with many other departmental areas around the school. There is a detailed development and replacement plan underway in order to ensure that leading-edge resources are always available to students.

With over 700 workstations across the Trust and a major network upgrade underway it is an exciting time to become involved and teach a range of courses across the key stages.

For further information on the department please contact Mr Gareth Freemantle, Assistant Principal, gfreemantle@wootton.beds.sch.uk
