Cost of Living

Even though the salary may not be comparable to what a teacher earns in the UK, our salary package includes a rent allowance, internet, immigration costs and a yearly round trip flight to your country of origin. Our teachers live and travel comfortably in Mexico. If you would like to contact a member of staff to get their insight, please let us know.

We have also prepared a list of costs in order to give you a better idea of living expenses in Mexico. Click on this [LINK](#).

Notes:

- All amounts are in Mexican pesos. Details change if tax laws alter. However, we have always managed to maintain net payments to staff at the same level even with tax increases.
- The minimum wage in Mexico varies from area to area but is roughly \$5,088.00 per month. Teachers in government schools in the state of Queretaro earn approximately \$8,000.00 MXN per month.
