

# **Information Pack**

## **Head of Mathematics**

Closing date: Midday, Tuesday 20th November 2018

Interviews: Friday 23<sup>rd</sup> November 2018

Oxford OX4 1DZ Telephone 01865 242191 Email: <a href="master@mcsoxford.org">master@mcsoxford.org</a> · <a href="www.mcsoxford.org">www.mcsoxford.org</a>

## Introduction from the Master, Helen Pike

Magdalen College School is a remarkable place. We are now well into our sixth century, and our former pupils include scholars, war heroes, musicians, Olympians, two Nobel Prize laureates, a Hollywood film director, and a saint. Our success in public examinations, in securing places at top universities, and in an astonishing array of extra-curricular pursuits ensures that we continue this proud tradition. We do so by nurturing the individual potential of each of our pupils, and above all we believe that learning is as fun as it is fulfilling.

Magdalen College School was founded in 1480 by William of

Waynflete: schoolmaster, bishop of Winchester and Lord Chancellor of England. Being of humble origins, Waynflete was determined that others of ability should be given the opportunity to learn, to serve and to prosper as he did. And so MCS offers a transformative education in our global university city, the community to which we contribute.

We attract and retain the best staff and MCS is a stimulating, welcoming and thriving environment in which both to learn and to work.

A lot happens at MCS. The various sections of our website (<u>www.mcsoxford.org</u>) including the recent <u>News</u> will give you an impression of our school.

Thank you for your interest.

H. C. Pull

### **HEAD OF MATHEMATICS**

### **General Information**

### The School

Magdalen College School, founded in 1480 by William of Waynflete, is one of the country's leading independent day schools. It is situated in an enviable location at the heart of Oxford beside the River Cherwell.

### The Role

Magdalen College School is seeking to appoint a Head of Mathematics from 1st September 2019. The Mathematics Department, which has expanded significantly in recent years, consists of 14 teachers. The successful candidate will be required to teach across senior school year groups, from Second Form (Year 7) to Further Maths A Level and

Oxbridge preparation. The successful candidate will be responsible for leading Maths teaching throughout the Senior School and will also oversee the work of the Head of Mathematics in the Junior School.

## **Application Process**

Candidates should submit the Application Form for Teaching Staff which can be found on the Job Vacancy link of the website (<a href="www.mcsoxford.org">www.mcsoxford.org</a>). To access click here. This should be emailed together with a CV and covering letter of application to the Recruitment Officer, Mrs Sarah Hunter, (<a href="applications@mcsoxford.org">applications@mcsoxford.org</a>). All documentation should be sent by midday on Tuesday 20<sup>th</sup> November 2018. Interviews will be held on Friday 23<sup>rd</sup> November 2018 and shortlisted candidates will be contacted by telephone. The school's preferred method of communication is by email and it will not be necessary to send a hard copy of the documents by post. References may be taken up in advance, although this does not necessarily mean that a candidate will be called for interview. If you do not wish references to be called for at this stage, please make that clear on the reference section of the application form.

## The Department

Mathematics is currently the most popular A Level in the school: 74 (48%) of this year's Lower Sixth have chosen to study Further Mathematics and a further 52 (34%) have chosen Single Maths. The department has dedicated nine Maths classrooms and a wellresourced departmental office. All classrooms are

equipped with a Smart board and data projector. Autograph and Geogebra are installed on computers in classrooms and study areas around the site.

Pupils are taught in mixed ability classes in the Second Form (Year 7) and are thereafter taught in sets from Third Form (Year 8) to Fifth Form (Year 11). At all times we encourage mathematical development and confidence through a combination of experimentation, discovery, explanation, practice and experience.

Rayner Essential Maths 7H is the main text book used in the Second Form (Year 7), Alexander Maths for Common Entrance Three is used for Third Form (Year 8), and Pearson's Edexcel IGCSE Maths Book 1 is used for Lower Fourth (Year 9). These are supplemented by Tony Gardiner's extension books as well as other resources including puzzles and games. There is plenty of scope for pupils to experience topics beyond the National Curriculum syllabus within these years, and the focus is on developing problem solving techniques alongside extending mathematical skills.

The current examination courses are Edexcel IGCSE Mathematics, OCR Additional Mathematics, and OCR MEI Mathematics and Further Mathematics A Levels. The department subscribes to the MEI Integral website, and these resources, as well as a large variety of others, are used throughout A Level teaching and to provide additional challenge in the IGCSE years.

There is an emphasis on problem solving throughout all of our teaching; puzzles, team games and challenges are used regularly within the classroom.

Academic standards are high and were as follows last year. In IGCSE: 77% grade 9, 91% grade 9-8, and 100% grade 9-7. In Additional Maths: 82% A, and 94% A-B. In A2 Maths: 61% A\*, 89% A\*-A, and 97% A\*-B. In A2 Further Maths: 50% A\*, 72% A\*-A, and 85% A\*-B. In recent years 5-10 pupils have applied for Mathematics degrees annually, and a good number are successful at gaining Oxbridge offers. A high number of Sixth Form pupils choose a mathematical or related subject for Waynflete Studies, the School's unique extended project, taught in conjunction with members of the university.

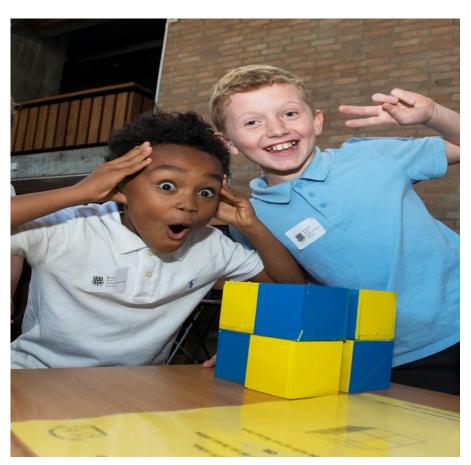

national In Mathematical Challenges, MCS pupils win large numbers of gold, silver bronze certificates, and significant numbers qualify for Olympiads. Ιn 2017-18 there were 50 golds for the

Senior Mathematical Challenge (13 qualified for the British Mathematical Olympiad), 71 golds for the Intermediate Mathematical Challenge (12 qualified for the Intermediate Mathematical Olympiad), and 39 golds for the Junior Mathematical Olympiad (2 qualified for the Junior Mathematical Olympiad). In 2018 our Junior UKMT Team Challenge Team were national runners-up, and the Senior Team took the same honours in 2017. Pupils are also encouraged to enter the National Cipher Challenge, with an MCS team coming third nationally in 2017.

We aim to inspire pupils into further studies in Mathematics by taking Sixth Form pupils (and interested Year 11) to the monthly lectures at the University of Oxford's Maths Institute and Year 10 pupils to Maths Inspiration lectures. We also run Maths clubs at lunchtimes and very popular Maths Pairs Competitions after school for three different age groups.

Outreach is a central part of the department's activities and ethos, and we work closely with the local community. There is an Outreach Coordinator within the department, but the Head of Department will also play a key role in supporting mathematical outreach projects. We work closely with AMSP (Advanced Maths Support Programme), and as part of this we host an afternoon of Oxbridge interview practice for Oxfordshire state schools. The School runs an annual Gifted and Talented Week for Year 5 pupils from local primary schools, and Maths is a regular and popular contributor to

this event. We also run well-established Primary Maths Challenge Day for Year 5 and 6 pupils from local Primary Schools. Through the School's Community Service Organisation, Lower Sixth pupils have the opportunity to help with numeracy and mathematics teaching at local primary schools and an FE College. We invite local secondary school pupils to our University Admissions

Test Preparation Sessions, and have recently started to offer a Homework Club for a local secondary school. We are now looking to offer extension classes and resources for gifted pupils in local primary and secondary schools, as well as becoming a hub for CPD for local primary and secondary teachers.

### The Candidate

The successful candidate will be a well-qualified Mathematician who will be prepared to take a share of the teaching of the subject at all levels. Above all, he/she will be enthusiastic about the subject as a whole and be prepared to participate in our extra-

Curricular and outreach events. The Head of Mathematics will be responsible to the

Master via the Deputy Head (Academic) for the proper discharge of his/her duties. In a lively day school, a willingness to contribute to other areas of school life, whether in the pastoral system, in games, music, drama, CCF or other activities, is always advantageous.

Candidates shortlisted for interview will be asked to prepare a five minute presentation on their vision for Mathematics at MCS, and will teach an observed lesson when they come to the school. They will also be required to bring with them the necessary ID documentation and degree certificate(s), all of which must be originals. Further information on the presentation, observed lesson, and documentation required will be provided with the invitation to interview.

## **Benefits**

MCS currently has its own salary scale, and salaries are substantially more generous than those in the maintained sector; there is also a relocation allowance on a sliding scale, by agreement with the Master and Bursar, and dependent on current location. The school also operates a cycle to work scheme, and travel loans are available. The school offers private medical cover and subscribes to the Teachers' Pension Scheme, in which all teaching staff are auto enrolled – there is, of course, an opt out, should this be preferred. School fee remission for full time staff sons (from Junior School through to Sixth Form) and staff daughters (Sixth Form) who pass entrance tests for the school is currently 50%; this

operates on a pro-rata basis for part time staff. In addition, Headington School currently allows full time staff daughters who pass entrance tests for the school a 20% remission. (Headington fee remission also operates on a pro-rata basis for part time staff, and is only available to staff with a Full Time Equivalent of 50% or over).

The school has a fully equipped gym which is available for staff use, and staff may also enjoy access to the University of Oxford's Rosenblatt Swimming Pool. Tennis courts are available, and there is a comprehensive programme of staff sports clubs, including football, climbing, yoga, Pilates, and badminton. Staff also have the opportunity to join choirs and music groups, and to get involved in drama productions.

Staff are encouraged to make use of the Senior Common Room within and after the school day, as an area for relaxation and shared discussion outside departments. There is also a quiet room located close to the SCR where staff can work and study. Tea and Coffee are served in the SCR at morning break, Lunch is provided in the Dining Hall, and cakes and cut fruit are available in the SCR at the end of the school day. Staff socials, guest nights and Master's Drinks are regular features of each term.

### **Professional Development**

The school places a significant emphasis on the professional development of all staff. A half termly CPD & Teaching Newsletter is distributed by email, which aims to highlight educational research and practical ideas, to share ideas from courses and conferences attended, to offer guidance on opportunities for CPD, and to highlight the work of colleagues in the area of teaching and learning. All colleagues are encouraged to attend at least one external CPD course each year, and also to visit another school, place of work or university, where appropriate.

The Teaching & Learning group meets before school twice per half term. Its purpose is to consider developments in educational research, to facilitate discussion of teaching and learning, to offer a forum for the sharing of good teaching practice, and to support colleagues in experimenting with new teaching techniques. There is also a programme of Learning Lunches each term for colleagues to share good practice. Colleagues who have been teaching for more than seven years (including a minimum of three years' service at MCS) may make an application for study leave for the second half of the Trinity term.

## Waynflete Teaching Certificate

The School aims to offer teaching staff joining the school without a teaching qualification (UQTs) the opportunity to develop their teaching craft and reflect on their professional practice though a structured programme of training and support. For such colleagues, the school offers the Waynflete Teaching Certificate, which may ultimately lead to Qualified Teacher Status through the Assessment Only route offered by the University of Reading.

## Safeguarding Policy

Magdalen College School is committed to the safeguarding of pupils, and any offer of employment will be subject to an enhanced DBS disclosure, the receipt of satisfactory references, the school's pre-employment medical questionnaire and sight of relevant original ID documentation and degree certificate(s).

## **Additional Information**

Please note that MCS is an inner-city school, with limited parking. Candidates who have been offered a post will be invited to make representations in the term preceding their arrival to the Usher (Senior Deputy Head) for a parking space. If you have any questions or require additional information, please contact the Recruitment Officer: 01865 253401.
