

Teacher of Mathematics The Green School for Boys

Responsibility and development opportunities for suitably experienced candidates

Dear prospective candidate,

Thank you for your interest in applying for the above post at The Green School for Boys. The Green School for Boys opened in September 2017 with 120 boys in year 7 and is one of two schools run by The Green School Trust – a Church of England Multi Academy Trust serving the young people of West London. The school is currently housed in high quality temporary accommodation and planning permission for a stunning permanent building was granted in December 2017. The Trust's core purpose is to develop schools which expand the hearts and minds of students within supportive, inclusive, multi-faith environments founded on Christian values. The motto for The Green School for Boys is "reach beyond your grasp" which is an adaptation of a line from "Andrea del Sarto", a poem by Robert Browning, which reads "Ah, but a man's reach should exceed his grasp, or what's a heaven for". This serves to illustrate the ambition we have for our boys.

This is a once in a lifetime opportunity to shape the mathematics curriculum of a new school and be involved in planning and evaluating successful mathematics teaching in collaboration with the Head of Department. The Trust has strong links with NCTEM and there will be opportunities to lead mathematics based research via The London Central and West Maths Hub

The Trust is keen to appoint someone who wishes to take advantage of our professional development opportunities and aspires to leadership roles. You will lead, plan and develop learning experiences which will foster a culture of high expectations, achievement for all and care for each individual within a dynamic learning environment where each boy will be stretched, stimulated and supported to make excellent progress. The school has a STEM specialism underpinned by a focus on literacy, creativity and links to industry. The school's Christian ethos and enrichment in Sports, Arts and STEM ensures that boys develop as well rounded confident and compassionate young men.

Staff are expected to be involved in all aspects of school life in order to lay strong foundations for the future. We value our staff and we work collaboratively to provide professional support, C.P.D. and sharing of good practice across both The Green School for Boys and The Green School for Girls. This is an exciting time to join the school and presents a unique opportunity to contribute to a new school in its second year with a highly committed and professional team who have established a strong positive ethos where every child matters.

To apply you should complete the TES/LDBS application form and write a supporting statement of no more than three sides of A4 (calibri size 11) explaining how your professional experience has prepared you for the role with reference to the person specification.

If you would like to visit the school please contact my PA Julie Hart j.hart@tgstrust.com. I very much look forward to receiving your application.

Yours sincerely,

Mrs Sally Yarrow
CEO & Executive Headteacher
The Green School Trust
