

HERNE BAY HIGH

A Specialist School and Sports College

Teacher of Design and Technology

At Herne Bay High School the staff within the Technology department are committed to providing the maximum opportunity for the students to gain skills and knowledge in every aspect of Technology afforded by this well resourced area of the curriculum.

The successful applicant will join a team of five staff who between them deliver courses in BTEC Level 1/2 Tech Award in Engineering, GCSE OCR Design and Technology, WJEC Level 1/2 Hospitality and Catering, and A Level OCR Product Design.

We have new facilities which include:

2 Food Technology rooms with adjoining classrooms and an ICT suite, supported by our Resources Centre, 2 Workshops and a design and model making space.

This post offers for the successful candidate the opportunity to work alongside a very experienced team of teachers to develop a technology experience for students which will prove to be stimulating and innovative. We want our students to be equipped with the relevant skills which will extend their opportunities in a 'technological' future.

We are looking for a person who can contribute to the teaching of design and technology in particular within the areas of resistant materials and graphics and who can demonstrate the following:

- Good communication skills
- Commitment to teamwork
- Commitment to the needs of students of all abilities
- Excellent classroom workshop practitioner
- Strong ICT skills and an understanding of how information technology can be used effectively within the teaching of technology

The successful applicant is expected to have a wide range of skills but it is important to note that we have a very strong commitment to supporting colleagues entering the profession with a full induction programme in place.

A hard working, dedicated and ambitious person will find this post exciting and challenging.
