

Science (Biology) Teacher (Secondary)

International School Brunei

Background

International School Brunei was established in 1964 as a not-for-profit organisation with a Board of Directors to oversee the development of the school - a status that exists to this day.

In 2015 the school moved to a brand new 22 acre site on the outskirts of Bandar Seri Begawan, the capital of Brunei Darussalam. At the same time, 'The Residence' a state of the art Boarding House, was opened to cater for up to 120 students aged 11 - 18.

ISB offers education from Nursery (2yrs) and the National Curriculum of England from Year 1 (4yrs old) to Year 8 (13yrs) followed by IGCSEs (14-16yrs) and the IB Diploma programme in the Pre-University section (16 - 18yrs).

ISB is non-selective, and currently has over 1100 students from over 40 different nationalities. Academic results are outstanding. IB Diploma results are consistently above the World Average, and over the years students have attended their first choice universities such as Oxford, Cambridge, Durham, Yale and Princeton.

In addition to the Bandar campus, ISB Seria, 1 hour from the capital, is the second campus. Catering for primary students. ISB is also in the process of

establishing a Centre for Inclusive Learning to support further students with learning needs. An English Language Centre (ELC) and a CACHE Adult learning programme completes the ISB offer.

The Position

International School Brunei requires an experienced teacher to join the successful Secondary School Sciences Faculty. The ideal candidate will join a dynamic faculty focussed on the highest possible standards of teaching and learning. The ability to teach, and experience of, Biology to Key Stage 5 is essential and IB experience is preferred.

Science is a popular subject at ISB with high levels of attainment, enjoyment and engagement. All students following an adapted British Curriculum at KS3, then opt to study either Coordinated or Triple Science at IGCSE (through Cambridge Assessment International Examinations). At IBDP level students can choose from any of the Group 4 Science options.

The Sciences Faculty is well resourced, with modern laboratories and access to a wide range of practical equipment, supported by an excellent science technician.

ISB is an inclusive school, therefore the successful candidate will need to have a wide range of pedagogical approaches to Science teaching and be able to deliver innovative and

engaging lessons which engage all students.

The Application Process

Interested candidates are asked to submit the following documents:

- Online application form and covering letter including a passport sized photograph.
- The names and contact details (including a telephone number) for three professional referees, one of whom must be your current Headteacher/Principal.

Longlisted applicants will be contacted within two weeks of the stated closing date with Skype interviews scheduled as soon as possible thereafter. If you have not heard from us by this time, you should assume that your application has been unsuccessful on this occasion.

Successful candidates are offered an initial two year contract, with the option to renew based on performance.

Please submit your application online through TES or email to recruitment@ac.isb.edu.bn

Closing date: Please refer to online advert.
