Making private healthcare affordable

With the NHS under increased pressure and financial wellbeing concerns growing, offering private health cover can go a long way to support employee health and wellbeing, as well as nurturing a positive company culture and improving employee retention.

Providing private medical insurance is often seen as the only option, but these costs can be out of reach for many businesses. That's why, at Benenden Health, we offer affordable, quality, private healthcare for all employees.

We're proud to be a not for profit mutual society that's been supporting UK businesses, and their employees, for over 117 years.

We're Benenden Health.
This is healthcare done different.
