

Geography is an academically robust subject which spans the social and physical sciences and promotes a lifelong interest and fascination in how the world works- Nick Crane.

Our learning journey

A level network: Coasts: Processes and Sand dunes- Witterings

A level fieldwork: Urban: Regeneration study- Horsham

Shaping places *Regenerating places

A level fieldwork: Globalisation in local area project

YEAR 13

Revision

Y13 mock exams

A level exams

The Carbon Cycle and Energy Security

Superpowers

Independent Investigation

Further study Geography Careers Geography Apprenticeships #choosegeography

Global Development and Connections *Health, Human Rights and Intervention

The Water Cycle and Water Insecurity

YEAR 12

Year 11 mock exams

Revision - responsive teaching and learning

Revision & GCSE exams

Climate change

Weather hazards: *Typhoon Haiyan *Somerset floods

Tectonic hazards: *Earthquakes- *Chile & Nepal

Pre release- Unit 3

Natural hazards and hazard risk

Economic futures in the UK

Closing the development gap

A level- EdExcel intro

Globalisation

Year 10 mock exams

The challenge of Natural Hazards

The challenge of Resource Management

UK resources

The changing economic world

TRF Case study: *Malaysia

YEAR 10

Urban issues and challenges

*UK city case study: London

The challenge of Natural Hazards

*LIC/ NEE case study: Nigeria

Global economic development

*Hot Deserts: Thar

GCSE Physical Fieldwork: *Coasts, hard engineering

UK Small scale ecosystem: *Pond

Biomes and ecosystem structure

Physical Landscapes in the UK

*River landscapes in the UK

Urban sustainability

GCSE Human Fieldwork: *London, regeneration

Global resources

*Food as a resource

The Living World

Urbanisation

SDGs

The Hydrological cycle

Rivers
