

Southern International School

Mathematics teacher

Person Specification:

- **UK National or first language English speaker.**
- A university degree and postgraduate teaching qualification or equivalent.
- Ideally the candidate will have at least two years' experience working with secondary age children but the job would also suit a newly qualified teacher looking for international school experience.
- An excellent classroom practitioner in Mathematics teaching.
- Essential qualities will include the ability to work independently and collaboratively as part of a team and to present to parents, pupils and colleagues a warm, engaging and approachable personality.
- Reliable and respectful at all times.
- Experience of working in an international school would be an advantage but not essential.
- Experience and/or knowledge of the Cambridge Mathematics curriculum would be an advantage but training will be available in any case.
- A proactive attitude towards participation in CPD and the school's performance management /appraisal processes.
- Able to work successfully under pressure with excellent organisational skills.
- A confident and competent user of IT in the classroom and for administrative purposes.
- Proactive in all aspects of school life through participation and support.
- Able to present a professional image in line with the high expectations of SIH.
